

Company: Smart Space Ltd

Document number: EVS-15-83b

Issue Date: 4 September 2015

Having conducted a review of the individual material components that form part of the Smart Space Rubix workstation, EnviroSpec hereby confirms that the product can be feasibly recycled using local New Zealand waste brokers and recyclers, to 98.9 % by weight of final product.

Smart Space Ltd
Rubix Workstation

- With System 35 screen -

98.9 % recyclable by weight

It remains the responsibility of the end user to ensure end of life products are directed to the appropriate recycling facility, or engage Smart Space to provide a product stewardship and take back programme accordingly.
