

Cruso is a Belgian furniture manufacturer, offering warm and playful furniture created by internationally renowned designers. The company has adopted an eco-friendly production process, using local and sustainable raw materials, manufacturing in Europe and employing land transportation as well as compact packaging solutions.

Cruso products are simple and welcoming. They have been designed for demanding everyday use and are perfect for cosy homes or professional environments.

JUNE / JULY.

BY JEAN-FRANÇOIS D'OR

The products of the JUNE / JULY collection are made of tables, benches and trays. With a playful philosophy, they are made entirely out of local wood. The plain oak board of the JUNE table ensures its their longevity and robustness.

As a complement to the table, the JULY trays are made out of the same wood and can be stacked conveniently. They are a perfect match for any interiors.

DESIGN BY JEAN-FRANÇOIS D'OR

His creations are simple, unpretentious and logical. Jean-François D'Or always aims to infuse some poetry into his work.

He graduated in industrial design at ENSAV La Cambre, Brussels in 1998. Since then, he has built up a solid and varied experience in New York and later worked closely with established and demanding designers such as Maarten Van Severen and Hans De Pelsmacker. He set up his own industrial design studio in 2003.

CHARTER OF ECOLOGICAL COMMITMENT

Cruso's objective is to constantly reduce its ecological footprint :

- . Designing durable and resistant products
- . Manufacturing in Europe
- . Reducing packaging and transport
- . Using sustainable materials

We want to offer the best design possible to our customers. It means having high quality standards for conception and production. That is why we care about working with talented industrial designers that share our philosophy. We make sure that their creations reach the market in the most responsible way possible. Our production process follows these simple rules : First, recycled or recyclable materials for both our products and their packaging. Secondly, European production and sourcing for limited CO2 emissions during transport.

As a young design brand, our duty is to deliver long-lasting furniture independently from trends. We believe in design simplicity and sustainable manufacturing.
