

# PROJECT PROFILE

## LILICO CLASSIC KITCHEN

### CLIENT

> Private

### LOCATION

> Lillico, Victoria

### ARCHITECT / DESIGNER

> D&C Kubale Constructions

### VALUE

> \$84k

### SUMMARY

> This is the kitchen of a lifetime built with very little concern for budget. Intended to recreate a classic country finish, the kitchen includes extensive use of solid timber moldings, corbells and cappings, all finished in 2-pack Lexicon white. Low maintenance ceramic tiles were used to simulate the heritage-look of pressed metal splashbacks illuminated with hidden LED lighting. The joinery was then topped with reconstituted stone benchtops and Vzug appliances. This project required exceptional attention to detail in joinery craftsmanship.

### CONSTRUCTION HIGHLIGHTS AND TECHNIQUES

- > Reconstituted stone benchtops and Vzug appliances
- > Solid timber moldings, corbells and cappings
- > Required exceptional attention to detail and planning
