

LUMEN CHRISTI LIBRARY UPGRADE

CLIENT

> Catholic Education

LOCATION

> Churchill, Victoria

ARCHITECT / DESIGNER

> Latrobe Valley Drafting

VALUE

> \$260k

SUMMARY

> The Lumen Christi Primary School was funded to refurbish their library building to modernize the facilities. The site included about 440 sqm and required the removal of the windows and doors from the exterior facade. Works included new floor coverings, walls and interior glazed partitions. New brick cladding was added and a new aluminium window and door suite installed. A bathroom and kitchen joinery package from our in-house facilities then completed works on-time, within budget and handed over to a very satisfied client.

CONSTRUCTION HIGHLIGHTS AND TECHNIQUES

- > Joinery package with new bathrooms and staffroom kitchenette
- > External brickwork with new aluminium window and door suite
- > Planar panel system
