

# PROJECT PROFILE

## NOWA NOWA FACILITIES DEPOT

### CLIENT

> Victorian State Govt. / DELWP

### LOCATION

> Nowa Nowa, Victoria

### ARCHITECT / DESIGNER

> JMA Architects

### VALUE

> \$1.80m

### SUMMARY

> Nowa Nowa was one of four projects awarded to Kubale Constructions by DELWP. After demolition, significant civil works were undertaken on the road and drainage including asphalt and curbing. New buildings of approximately 850 sqm were erected on slabs using conventional steel portal frames. The contract included the installation of self-bunded diesel and petrol storage tanks, bowzers, a large canopy, bollards and a underground Pureceptor oil and water separator tank system. Last was a security upgrade incl. access control, CCTV and large palisade gates.

### CONSTRUCTION HIGHLIGHTS AND TECHNIQUES

- > Portal steel frame with Colorbond cladding
- > Significant civil component including drainage, asphalt and curbing
- > Petrol and diesel bowzers with underground oil separator system
