SUMMARY

> Kubale Constructions has maintained a strong relationship with Fonterra for over 20 years. We have provided a variety of services under both an hourly-rate + expenses arrangement, or larger contracted works. While most jobs have taken place at the Darnum Fonterra facility, we've had cause to travel to many smaller locations. Given the nature of their business, we've needed to conform to Fonterra's live operating environment and their administrative needs. We have up-skilled our crews for the specialist work required in confined spaces, hot conditions and in emergencies.
