

M2 THEATRE COMPANY

M2 Theatre Company is a collaboration of Marcellin and Our Lady of Mercy Colleges. It was established in 2006 with the view of giving students the opportunity to be involved in high quality productions and to expand their skills in the Performing Arts both on and off stage.

Initially offering senior productions, in 2009 it was expanded to offer a Junior Production, therefore allowing students at all year levels an opportunity to be involved in a performance annually. The company is an inclusive community that encourages all involved to learn and grow. Whilst there is a range of motivations for student involvement there are many alumni who have continued to study and go on to work professionally in the industry both as performers and technicians in Australia and overseas.
