TRAVEL & TOURISM
**ECONOMIC
IMPACT 2024**

SURINAME

A woman in a pink jacket and a child in a blue jacket are walking away from the camera on a gravel path in a forest. The path is covered with fallen leaves. The background is filled with trees and sunlight filtering through the canopy. Large white text 'FOR E W O R D' is overlaid vertically on the left side of the image.

FOR E W O R D

2024 to break all records

I'm delighted 2023 was another strong year for Travel & Tourism. That was, in part, thanks to the restarting of flights from China, with outbound travellers swelling numbers. The sector contributed almost \$10 trillion in value to the global economy and has almost returned to pre-pandemic levels, trailing the 2019 peak by 4%. This success came in the midst of a year of rising geopolitical tensions and economic uncertainties – yet more proof of the sector's resilience.

Let's look more closely at the figures. Globally, the sector contributed to **9.1% of global GDP**. It is a major employer providing jobs in some of the world's poorest countries. Last year, the Travel & Tourism workforce grew by 27.4 million to employ **330 million people**, almost reaching its pre-pandemic high. International spending increased by 33.1% to \$1.63 trillion, just 14% below 2019 levels. Domestic spending, meanwhile, increased by more than 18% to reach almost \$5 trillion, surpassing 2019 levels. Leisure spending surged by 21.2% to \$5.3 trillion, while business expenditure saw a 22.4% increase to reach \$1.3 trillion, with both closely approaching levels seen in 2019. This tells us that whether travellers holiday in their own country or abroad, or travel for business purposes, they are spending more.

Travel & Tourism recovered to 2019 levels in almost all regions around the world, including North, Central and South America, Africa, the Middle East and Europe.

Asia-Pacific, where COVID-19 restrictions were more severe, fully re-opened in 2023 and we can predict its return to 2019 levels this year.

We can predict a record-breaking 2024. The sector's global economic contribution is set to reach an all-time high of **\$11.1 trillion**, which will generate one in every ten dollars worldwide. The sector is also expected to support nearly **348 million jobs**, an increase of 13.6 million jobs on its 2019 record. International visitor spending is expected to come close to its peak, reaching \$1.89 trillion, while domestic tourists will spend more than in any previous year.

The future is very bright. That does not mean there are no risks, whether it is geopolitical instability or stubborn inflation. Furthermore, growth brings with it an added responsibility to do so inclusively and sustainably. In 2022, the WTTC began tracking and reporting the environmental and social impact of Travel & Tourism. The research proved that the decoupling of greenhouse gas emissions from the sector's growth has begun. This is good but we need to do more. The sector must decarbonise faster, whether it is through sustainable fuels for aviation and cruise or electric vehicles, and we must also protect the natural world upon which our future depends. And while Travel & Tourism already provides considerable opportunities for women, young people and some of the world's most marginalised people, we need to ensure this increases.

The sector's growth in 2024 and beyond will depend on the actions we take now. We need to continue to improve connectivity, whether it is through transport or telecoms infrastructure, and we must address the labour and skills shortages affecting so many businesses globally. Artificial Intelligence (AI) is evolving quickly and we must take advantage, whether it is making travel smoother, more efficient or creating a sector tailored to the needs of every traveller.

We trust that this report and its accompanying data will support policymakers, industry professionals and individuals engaged in the evolution of travel. It aims to help shape a future for the sector that emphasises sustainability and inclusion.

DEFINING THE ECONOMIC CONTRIBUTION OF TRAVEL & TOURISM

Travel & Tourism is an important economic activity in most economies around the world. As well as its direct economic impact, the industry has significant indirect and induced impacts. The UN Statistics Division-approved Tourism Satellite Accounting methodology (TSA:RMF 2008) quantifies only the direct contribution of Travel & Tourism. But WTTC recognises that Travel & Tourism's total contribution is much greater, and aims to capture its indirect and induced impacts through its annual research.

DIRECT CONTRIBUTION

The direct contribution of Travel & Tourism to GDP reflects the 'internal' spending on Travel & Tourism (total spending within a particular economy on Travel & Tourism by residents and non-residents for business and leisure purposes) as well as government 'individual' spending - spending by government on Travel & Tourism services directly linked to visitors, such as cultural (eg museums) or recreational (eg national parks).

The direct contribution of Travel & Tourism to GDP is calculated to be consistent with the output, as expressed in National Accounting, of tourism-characteristic sectors such as hotels, airlines, airports, travel agents and leisure and recreation services that deal directly with tourists. The direct contribution of Travel & Tourism to GDP is calculated from total internal spending by 'netting out' the purchases made by the different tourism sectors. This measure is consistent with the definition of Tourism GDP, specified in the 2008 Tourism Satellite Account: Recommended Methodological Framework (TSA: RMF 2008).

The total contribution of Travel & Tourism includes its 'wider impacts' (ie the indirect and induced impacts) on the economy. The 'indirect' contribution includes the GDP and jobs supported by:

- Travel & Tourism investment spending – an important aspect of both current and future activity that includes investment activity such as the purchase of new aircraft and construction of new hotels;
- Government 'collective' spending, which helps Travel & Tourism activity in many different ways as it is made on behalf of the 'community at large' – eg tourism marketing and promotion, aviation, administration, security services, resort area security services, resort area sanitation services, etc;
- Domestic purchases of goods and services by the sectors dealing directly with tourists – including, for example, purchases of food and cleaning services by hotels, of fuel and catering services by airlines, and IT services by travel agents.

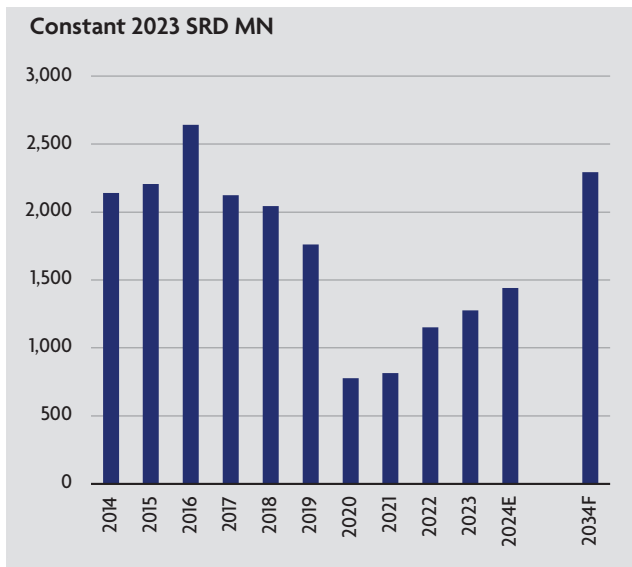

The 'induced' contribution measures the GDP and jobs supported by the spending of those who are directly or indirectly employed by the Travel & Tourism industry.

TRAVEL & TOURISM'S CONTRIBUTION TO GDP¹

The direct contribution of Travel & Tourism to GDP in 2023 was SRD1,275.7mn (1.0% of GDP). This primarily reflects the economic activity generated by industries such as hotels, travel agents, airlines and other passenger transportation services (excluding commuter services). But it also includes, for example, the activities of the restaurant and leisure industries directly supported by tourists.

The direct contribution of Travel & Tourism to GDP is expected to grow by 4.7% pa to SRD2,292.4mn (1.3% of GDP) from 2024 to 2034.

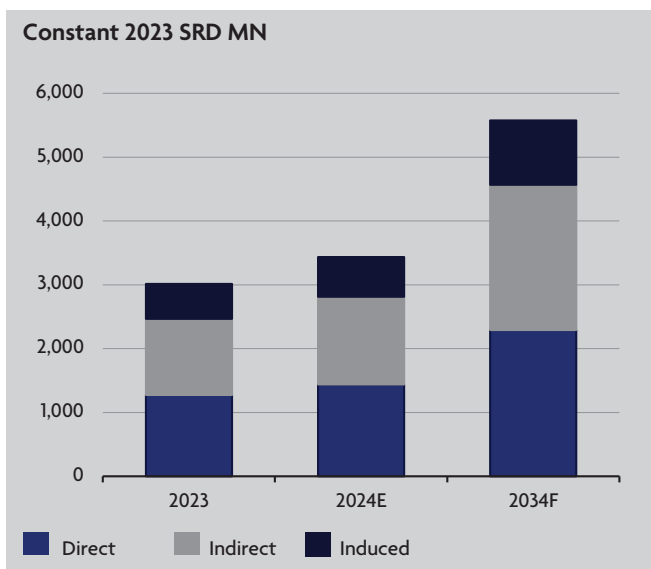

Suriname: Direct Contribution of Travel & Tourism to GDP

The total contribution of Travel & Tourism to GDP (including wider effects from investment, the supply chain and induced income impacts, see page 3) was SRD3,012.5mn in 2023 (2.3% of GDP).

It is forecast to rise by 5.0% pa to SRD5,572.5mn from 2024 to 2034 (3.1% of GDP).

Suriname: Total Contribution of Travel & Tourism to GDP

¹ All values are in constant 2023 prices & exchange rates

E - Estimate, F - Forecast

TRAVEL & TOURISM'S CONTRIBUTION TO EMPLOYMENT

Travel & Tourism generated 2,022 jobs directly in 2023 (0.9% of total employment). This includes employment by hotels, travel agents, airlines and other passenger transportation services (excluding commuter services). It also includes, for example, the activities of the restaurant and leisure industries directly supported by tourists.

By 2034, Travel & Tourism will account for 2,731 jobs directly (1.1% of total employment), an increase of 2.7% pa from 2024.

Suriname: Direct Contribution of Travel & Tourism to Employment

The total contribution of Travel & Tourism to employment (including wider effects from investment, the supply chain and induced income impacts, see page 3) was 5,043 jobs in 2023 (2.3% of total employment).

By 2034, Travel & Tourism is forecast to support 7,019 jobs (2.8% of total employment), an increase of 2.9% pa since 2024.

Suriname: Total Contribution of Travel & Tourism to Employment

E - Estimate, F - Forecast

VISITOR EXPORTS AND INVESTMENT¹

VISITOR EXPORTS

Visitor exports are a key component of the direct contribution of Travel & Tourism. In 2023, Suriname generated SRD1,416.6mn in visitor exports.

By 2034, international tourist arrivals are forecast to total 273,000, generating expenditure of SRD3,054.5mn, an increase of 6.1% pa since 2024.

Suriname: Visitor Exports and International Tourist Arrivals

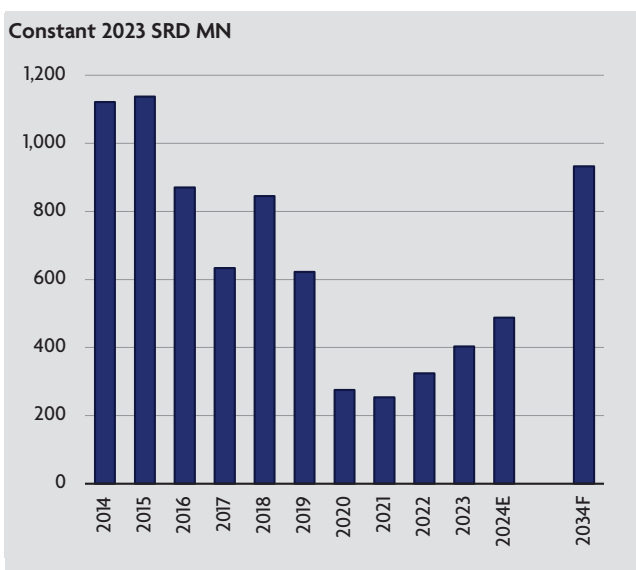

INVESTMENT

Travel & Tourism is expected to have attracted capital investment of SRD402.8mn in 2023.

Travel & Tourism's share of total national investment is expected to be 1.3% in 2034.

Suriname: Capital Investment in Travel & Tourism

¹All values are in constant 2023 prices & exchange rates

E - Estimate, F - Forecast

DIFFERENT COMPONENTS OF TRAVEL & TOURISM¹

Leisure travel spending (inbound and domestic) generated 61.7% of total internal spending in 2023 (SRD1,839.4mn) compared with 38.3% for business travel spending (SRD1,142.2mn).

Leisure travel spending is expected to rise by 5.1% pa to SRD3,500.2mn from 2024 to 2034.

Business travel spending is expected to rise by 3.6% pa to SRD1,747.1mn from 2024 to 2034.

Domestic travel spending generated 52.5% (SRD1,565.0mn) of total internal spending in 2023 compared with 47.5% (SRD1,416.6mn) for visitor exports (ie foreign visitor spending or international tourism receipts).

Domestic travel spending is expected to rise by 2.9% pa to SRD2,192.8mn from 2024 to 2034.

Visitor exports are expected to rise by 6.1% pa to SRD3,054.5mn from 2024 to 2034.

The Travel & Tourism industry contributes to GDP and employment in many ways as detailed on page 3.

The total contribution of Travel & Tourism to GDP is twice as large as its direct contribution.

The tables on pages 8-11 provide brief extracts from the full WTTC Economic League Table Rankings, highlighting comparisons with competing destinations as well as with the world and regional average. Averages are simple cross-economy averages. The competing destinations selected are those that offer a similar tourism product and compete for tourists from the same set of origin markets. These tend to be, but are not exclusively, geographical neighbours.

% of total refers to each indicator's share of the relevant whole economy indicator such as GDP and employment. Visitor exports is shown relative to total exports of goods and services. Domestic spending, as well as leisure and business spending, is expressed relative to whole economy GDP. Investment spending is expressed relative to whole economy investment.

GLOSSARY

KEY DEFINITIONS

TRAVEL & TOURISM

Relates to the activity of travellers on trips outside their usual environment with a duration of less than one year. Economic activity related to all aspects of such trips is measured within the research.

ECONOMIES

This term is used because the scope of the research covers not only countries but also specific territories/states.

DIRECT CONTRIBUTION TO GDP

GDP generated by industries that deal directly with tourists, including hotels, travel agents, airlines and other passenger transport services, as well as the activities of restaurant and leisure industries that deal directly with tourists. It is equivalent to total internal Travel & Tourism spending (see below) within a country less the purchases made by those industries (including imports). In terms of the UN's Tourism Satellite Account methodology it is consistent with total GDP calculated in table 6 of the TSA: RMF 2008.

DIRECT CONTRIBUTION TO EMPLOYMENT

The number of direct jobs within Travel & Tourism. This is consistent with total employment calculated in table 7 of the TSA: RMF 2008.

TOTAL CONTRIBUTION TO GDP

GDP generated directly by the Travel & Tourism sector plus its indirect and induced impacts (see below).

TOTAL CONTRIBUTION TO EMPLOYMENT

The number of jobs generated directly in the Travel & Tourism sector plus the indirect and induced contributions (see below).

DIRECT SPENDING IMPACTS

VISITOR EXPORTS

Spending within the country by international tourists for both business and leisure trips, including spending on transport, but excluding international spending on education. This is consistent with total inbound tourism expenditure in table 1 of the TSA: RMF 2008.

DOMESTIC TRAVEL & TOURISM SPENDING

Spending within a country by that country's residents for both business and leisure trips. Multi-use consumer durables are not included since they are not purchased solely for tourism purposes. This is consistent with total domestic tourism expenditure in table 2 of the TSA: RMF 2008. Outbound spending by residents abroad is not included here, but is separately identified according to the TSA: RMF 2008 (see below).

GOVERNMENT INDIVIDUAL SPENDING

Spending by government on Travel & Tourism services directly linked to visitors, such as cultural services (eg museums) or recreational services (eg national parks).

INTERNAL TOURISM CONSUMPTION

Total revenue generated within a country by industries that deal directly with tourists including visitor exports, domestic spending and government individual spending. This does not include spending abroad by residents. This is consistent with total internal tourism expenditure in table 4 of the TSA: RMF 2008.

BUSINESS TRAVEL & TOURISM SPENDING

Spending on business travel within a country by residents and international visitors.

LEISURE TRAVEL & TOURISM SPENDING

Spending on leisure travel within a country by residents and international visitors.

INDIRECT AND INDUCED IMPACTS

INDIRECT CONTRIBUTION

The contribution to GDP and jobs of the following three factors:

- **CAPITAL INVESTMENT:** Includes capital investment spending by all industries directly involved in Travel & Tourism. This also constitutes investment spending by other industries on specific tourism assets such as new visitor accommodation and passenger transport equipment, as well as restaurants and leisure facilities for specific tourism use. This is consistent with total tourism gross fixed capital formation in table 8 of the TSA: RMF 2008.
- **GOVERNMENT COLLECTIVE SPENDING:** Government spending in support of general tourism activity. This can include national as well as regional and local government spending. For example, it includes tourism promotion, visitor information services, administrative services and other public services. This is consistent with total collective tourism consumption in table 9 of TSA: RMF 2008.
- **SUPPLY-CHAIN EFFECTS:** Purchases of domestic goods and services directly by different industries within Travel & Tourism as inputs to their final tourism output.

INDUCED CONTRIBUTION

The broader contribution to GDP and employment of spending by those who are directly or indirectly employed by Travel & Tourism.

OTHER INDICATORS

OUTBOUND EXPENDITURE

Spending outside the country by residents on all trips abroad. This is fully aligned with total outbound tourism expenditure in table 3 of the TSA: RMF 2008.

INTERNATIONAL TOURIST ARRIVALS

The number of arrivals of international overnight visitors (tourists) to the country.

METHODOLOGICAL NOTE

WTTC has an ongoing commitment to align its economic impact research with the UN Statistics Division-approved 2008 Tourism Satellite Account: Recommended Methodological Framework (TSA:RMF 2008). This involves the benchmarking of country reports to official, published TSAs, including for countries which are reporting data for the first time, as well as existing countries reporting an additional year's data. New TSAs incorporated this year include Aruba, Kenya, Namibia, North Macedonia, Papua New Guinea and Uganda, bringing our total of countries and economies in our benchmarking dataset to 72. Our TSA benchmarked countries cover around 90% of global direct T&T GDP.

WTTC coverage includes data on 185 countries and economies, and reports on 27 regions, sub-regions and economic and geographic groups.

ECONOMIC AND GEOGRAPHIC GROUPS

APEC (ASIA-PACIFIC ECONOMIC COOPERATION)

Australia, Brunei Darussalam, Canada, Chile, China, Hong Kong SAR China, Indonesia, Japan, South Korea, Malaysia, Mexico, New Zealand, Papua New Guinea, Peru, Philippines, Russian Federation, Singapore, Taiwan China, Thailand, USA, Vietnam.

COMMONWEALTH¹

Anguilla, Antigua and Barbuda, Australia, Bahamas, Bangladesh, Barbados, Belize, Bermuda, Botswana, Brunei Darussalam, Cameroon, Canada, Cayman Islands, Cyprus, Dominica, Eswatini, Fiji, Gambia, Ghana, Grenada, Guyana, India, Jamaica, Kenya, Kiribati, Lesotho, Malawi, Malaysia, Maldives, Malta, Mauritius, Mozambique, Namibia, New Zealand, Nigeria, Pakistan, Papua New Guinea, Rwanda, Seychelles, Sierra Leone, Singapore, Solomon Islands, South Africa, Sri Lanka, St Kitts and Nevis, St Lucia, St Vincent and the Grenadines, Tanzania, Togo, Tonga, Trinidad and Tobago, Uganda, UK, UK Virgin Islands, Vanuatu, Zambia

G7

Canada, France, Germany, Italy, Japan, UK, USA.

G20

African Union², Argentina, Australia, Brazil, Canada, China, European Union, France³, Germany³, India, Indonesia, Italy³, Japan, Mexico, Russian Federation, Saudi Arabia, South Africa⁴, South Korea, Türkiye, UK, USA.

GCC (GULF COOPERATION COUNCIL)

Bahrain, Kuwait, Oman, Qatar, Saudi Arabia, UAE.

OAS (ORGANIZATION OF AMERICAN STATES)

Antigua and Barbuda, Argentina, Bahamas, Barbados, Belize, Bolivia, Brazil, Canada, Chile, Colombia, Costa Rica, Cuba, Dominican Republic, Dominica, Ecuador, El Salvador, Grenada, Guatemala, Guyana, Haiti, Honduras, Jamaica, Mexico, Nicaragua⁵, Panama, Paraguay, Peru, St Kitts and Nevis, St Lucia, St Vincent and the Grenadines, Suriname, Trinidad and Tobago, USA, Uruguay, Venezuela.

OECD (ORGANISATION FOR ECONOMIC CO-OPERATION AND DEVELOPMENT)

Australia, Austria, Belgium, Canada, Chile, Colombia, Costa Rica, Czechia, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Israel, Italy, Japan, South Korea, Latvia, Lithuania, Luxembourg, Mexico, Netherlands, New Zealand, Norway, Poland, Portugal, Slovakia, Slovenia, Spain, Sweden, Switzerland, Türkiye, UK, USA.

(OIC) ORGANISATION OF ISLAMIC COOPERATION⁶

Albania, Algeria, Azerbaijan, Bahrain, Bangladesh, Benin, Brunei, Burkina Faso, Cameroon, Chad, Comoros, Côte d'Ivoire, Egypt, Gabon, Gambia, Guinea, Guyana, Indonesia, Iran, Iraq, Jordan, Kazakhstan, Kuwait, Kyrgyzstan, Lebanon, Libya, Malaysia, Maldives, Mali, Morocco, Mozambique, Niger, Nigeria, Oman, Pakistan, Qatar, Saudi Arabia, Senegal, Sierra Leone, Sudan, Suriname, Syria, Tajikistan, Togo, Tunisia, Türkiye, UAE, Uganda, Uzbekistan, Yemen.

OTHER OCEANIA

American Samoa, Cook Islands, French Polynesia, Guam, Marshall Islands, Micronesia (Federated States of), Nauru, New Caledonia, Niue, Northern Mariana Islands, Palau, Samoa, Tuvalu.

PACIFIC ALLIANCE

Chile, Colombia, Mexico, Peru.

SADC (SOUTHERN AFRICAN DEVELOPMENT COMMUNITY)

Angola, Botswana, Comoros, Democratic Republic of Congo (DRC), Eswatini, Lesotho, Madagascar, Malawi, Mauritius, Mozambique, Namibia, Seychelles, South Africa, Tanzania, Zambia, Zimbabwe.

1 This includes data for Overseas British Territories, but there is no data for Nauru, Samoa and Tuvalu

2 This union of 55 member states received full G20 membership status in September 2023. It is included in 2023 data

3 Included in European Union

4 Included in African Union

5 Nicaragua left the OAS in November 2023. It is included in 2023 data

6 no data for Afghanistan, Djibouti, Guinea-Bissau, Mauritania, Palestine, Somalia or Turkmenistan

Contributing data to the WTTC Economic Impact Model:

STR is part of the CoStar Group (NASDAQ: CSGP) which is a leading provider of online real estate marketplaces, information, and analytics in the property markets. Founded in 1987, CoStar Group conducts expansive, ongoing research to produce and maintain the largest and most comprehensive database of real estate information. CoStar is the global leader in commercial real estate information, analytics, and news, enabling clients to analyse, interpret and gain unmatched insight on property values, market conditions and availabilities.

STR provides premium data benchmarking, analytics, and marketplace insights for the global hospitality industry.

To learn more, visit: [STR.com](https://www.str.com)

ForwardKeys was founded in 2010 on the premise that businesses dependent on international travellers – such as tourism organisations, hotels and retailers – would make better strategic decisions if they knew who was travelling where, when and for how long. The self-funded company, therefore, developed the most comprehensive database of air travel bookings in the industry, offering detailed information on traveller profiles.

Yet ForwardKeys is more than just a consultancy to the aviation industry. In recent years, it has evolved to become a travel intelligence specialist, able to provide insight into not only the flow of international travellers but also their behaviour and preferences at their destination.

ForwardKeys, on a mission to predict travellers' impact. Learn more about the data solutions and visit: [ForwardKeys.com/Products](https://www.forwardkeys.com/products)

The World Travel & Tourism Council is the global authority on the economic and social contribution of Travel & Tourism.

WTTC promotes sustainable growth for the Travel & Tourism sector, working with governments and international institutions to create jobs, to drive exports and to generate prosperity. Council Members are the Chairs, Presidents and Chief Executives of the world's leading private sector Travel & Tourism businesses.

Together with Oxford Economics, WTTC produces annual research that shows Travel & Tourism to be one of the world's largest sectors, supporting 330 million jobs and generating 9.1% of global GDP in 2023. Comprehensive reports quantify, compare and forecast the economic impact of Travel & Tourism on 185 economies around the world. In addition to individual country fact sheets, and fuller country reports, WTTC produces a world report highlighting global trends and 27 further reports that focus on regions, sub-regions and economic and geographic groups.
