

- 1 Press identification code field.** After entering, **press OK** keyboard button.
- 2** If there is already an active instance of the application, the system recognises it. **Press REACTIVATE** button.  
**!IMPORTANT:** Activation of the new device deactivates the application on the previous one.
- 3 Press recovery code field.** After entering, **press CHECK MARK** keyboard button.  
**!Note:** The recovery code is created during the initial activation of the application.
- 4 Press activation code field.** After entering, **press OK** keyboard button.
- 5 Press Enter your PIN and Confirm your PIN fields.** After entering, **press OK** keyboard button.

- 6 Press Enter and confirm the recovery code fields.** After entering, **press OK** keyboard button.  
**!Note:** The new recovery code deletes the old one - remember only a new recovery code.
- 7 Wait** until the initialization of the payment system completes.  
**!IMPORTANT:** Don't exit the app and don't type until end of this action.
- 8 Press Enter the PIN field.** After entering, **press OK** keyboard button.

After the PIN entry, follows logging into the system. **Wait until it's over.**

**!IMPORTANT:** Don't exit the app and don't type until end of this action.
