

## 15MM RUMBLE STRIP

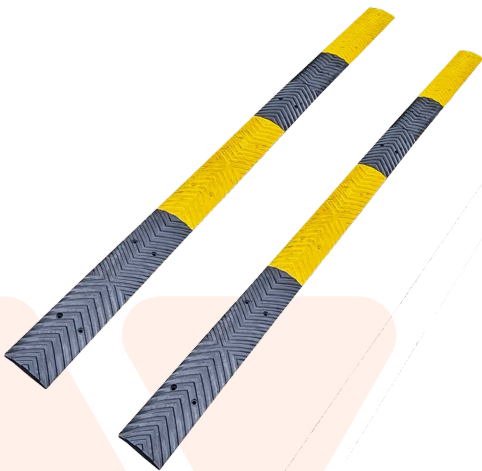

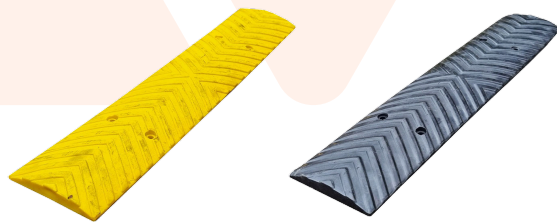

Ideal for traffic safety on approach and around retirement villages, shopping centres, local streets and carparks as a visible warning of pedestrian access areas, such as pedestrian crossings.

### Features:

- Manufactured from high-quality, recycled rubber
- 4 x fixing points per module
- Modular construction allows alternate black & yellow combination or single colour lines
- Fit together to span required road length
- Have hazard warning strips that are highly visible and encourage safe driving
- Safe for emergency vehicles
- Can also be used as a heavy-duty wall guard

### Fixings:

- 4x fixings required per module
- Fasten Rumble Strips to concrete surfaces with 6.5mm Metal Pin Anchors
- Fasten Rumble Strips to asphalt/bitumen over base course use a 6mm x 72mm heavy-duty nylon anchor
