

HEAVY-DUTY CABLE & HOSE PROTECTOR

Occasionally you just can't avoid running cables or hoses across the workplace yard, road or warehouse. Northpac's Heavy-Duty Cable & Hose Protectors are designed to protect cables and hoses from damage whilst also protecting people from potential tripping hazards.

Features:

- Manufactured from long-lasting, natural, recycled rubber
- Heavy-duty T-shaped connectors that interlock modular sections
- Can be fitted together to required length
- Hinged polyurethane lid for easy access to cables or hoses
- 12mm fixing holes for permanent application
- Easy transport, handling and installation
- Ideal for outdoor use, suitable for indoor use
- Highly visible chequered plate design with yellow lid
