

SPEED CUSHION 50MM

Northpac's rubber Speed Cushions work great at slowing car speeds down safely. They can also be used as lane separation, when driveway access is required. Our Speed Cushions are made from highly durable rubber, designed tough for Australian roads.

Features:

- Embedded reflective panels increase visibility & safety
- 20-ton weight capacity
- Manufactured from high-quality, 100% recycled rubber
- Safe for emergency vehicles

Fixings:

- Compatible Fixings: A, D, E, I
- 600mm: 2x fixings required for each End Cap / 4x required for each Mid Section
- 900mm: 3x fixings required for each End Cap / x6 required for each Mid Section
