Innsbruck has excellent public transportation but is also walkable. Leisure opportunities include hiking, skiing (in winter), swimming, and many others. There are several shopping malls, student bars, and cinemas showing foreign language films. International students also enjoy traveling, with Innsbruck being so close to a lot of other prime European destinations.

- Student accommodation:** The MCI does not have its own student dormitory, they do however cooperate with the dormitory "Internationales Studentenhaus" (ISH) and exchange students can book their rooms directly through MCI for this dormitory. Only a very limited number of rooms are offered in this dormitory, so students must book their rooms very quickly. Alternatively The Austrian Exchange Service (OeAD) arranges rooms in student dormitories for a monthly fee. This is the easiest and most convenient way for exchange students to find relatively inexpensive housing.
