## EXTRA FINE GRANULATED CANE SUGAR

Extra Fine Granulated Cane Sugar, a food grade product, is made by crystallizing a purified and filtered thick juice syrup removed from sugar cane, which is then dried and screened to produce one of the most popular sugar grades. It is white in color and has a sucrose content of not less than 99.8 percent.

This product is either referred to as Fine Granulated Cane Sugar or Extra Fine Granulated Cane Sugar depending on market location.

### Packaging

Extra Fine Granulated Cane Sugar is available in bulk truck quantities as well as 1/10<sup>th</sup> and 1/8<sup>th</sup> ounce packets, 50 and 100 pound bags and 2200 pound supersacks.

### General Requirements

This food grade product is manufactured in accordance with Current Good Manufacturing Practices and complies with the Federal Food Drug and Cosmetic Act and all other FDA regulations as well as any applicable state statutes and regulations.

### Typical Analysis

Sucrose	NLT 99.8%
