EXECUTIVE SUMMARY

Since 2004 Aviation Gate Technical Airport Services with its subsidiaries Aviation Gate Transport Consultancy & Gulf Quality Engineering has been active in provision and services of airport ground support equipment (GSE). Our key role is to meet development challenges facing aviation sector with respect to airport services, and associated fields. We retain excellent relations with a good number of world major GSE manufacturers from USA Europe and Asia. Our accredited technical management meets strictly ICAO and related international standards.

As we are operating at the capital of United Arab Emirates and with our professional airport/aircraft and general equipment expertise, we can strongly offer after-sale product support (repair, maintenance, and warranty backup). With our close airport industry involvement and relationship, we can also serve as a strong partner in promoting and supporting our clients.

We also provide for our customers a complete solution that will minimize the cost of ownership and resources in the maintenance of all types of ground support equipment.

As part of our growth strategy, we expanded our international network through inauguration of branch office in UK which enable us to increase our market outreach to most cutting-edge technology within airport and aircraft equipment, maintenance, and support industry. Moreover, we have expanded our services to various airports/entities in Abu Dhabi and Dubai with a strong team of highly qualified and experienced engineers and skilled technical staff.

OUR MISSION

- To provide our clients with impeccable services and products that meet superior standards.
- To offer our employees an excellent working environment and reward entrepreneurial spirit and outstanding performance.
- To generate sustainable financial results and increasing value for our shareholders.
- To maintain mutually rewarding and reliable partnerships with manufacturers, suppliers and authorities.
- To act responsibly towards society and the environment and conduct business to the highest ethical and professional standards.

OUR SERVICES

Aviation Gate being a UAE company maintains a continued interest in all airport equipment and it's supplies, in the form of periodic inspection or direct feedback from the client.

This continued involvement provides invaluable insight into the long-term performance of the equipment and contributes towards further development of future material supplies and thereby enables Aviation Gate offer increasingly cost-effective and best reliable service to its clients. The primary activities are:

- Continuous expert technical service and advice to clients
- Supply of the right quality airport equipment
- Stand by for all client's emergency calls.
