**EVENT SITUATION**

You are to assume the role of the general manager at a local CARE MORE drugstore. The district manager (judge) wants you to decide how to price a private label product and explain reasons for the pricing decision.

There is currently a nationwide shortage on disposable baby diapers. The popular name brands had to slow manufacturing due to a shortage of crucial materials needed. The shortage has led to panic buying and great concern among caretakers.

CARE MORE sells a private label brand of baby diapers. Since it is a private label brand, CARE MORE can price the product above or below the manufacturer advised pricing. Currently, a 30-pack of CARE MORE private label baby diapers is $7.00, in comparison, a name brand package of 30 diapers is priced at $15.00.

All retailers in town have little to no diapers in stock. CARE MORE will be receiving a shipment of private label brand diapers in tomorrow. The district manager (judge) is allowing you to determine if the price of each package should be kept at $7.00 or if the price should be changed. The district manager (judge) wants you to analyze the situation, set a price and explain reasons for the pricing decision.

You will present your ideas to the district manager (judge) in a role-play to take place in your office. The district manager (judge) will begin the role-play by greeting you and asking to hear your ideas. After you have presented ideas and have answered the district manager’s (judge’s) questions, the district manager (judge) will conclude the role-play by thanking you for your work.

JUDGE ROLE-PLAY CHARACTERIZATION

You are to assume the role of a district manager for CARE MORE drugstore. You want a local general manager (participant) to decide how to price a private label product and explain reasons for the pricing decision.

There is currently a nationwide shortage on disposable baby diapers. The popular name brands had to slow manufacturing due to a shortage of crucial materials needed. The shortage has led to panic buying and great concern among caretakers.

You are allowing the general manager (participant) to determine if the price of each package should be kept at $7.00 or if the price should be changed. You want the general manager (participant) to analyze the situation, set a price and explain reasons for the pricing decision.

The participant will present information to you in a role-play to take place in the office. You will begin the role-play by greeting the participant and asking to hear about his/her ideas.

During the course of the role-play, you are to ask the following questions of each participant:

1. Do you think we should set limits on how many packages a customer can purchase?
2. How can we let the local community know that we have diapers in stock?

Once the general manager (participant) has presented information and has answered your questions, you will conclude the role-play by thanking the general manager (participant) for the work.
You are not to make any comments after the event is over except to thank the participant.
