

# private healthcare

support employees  
when they need it most

## overview

Private Healthcare makes private surgery and medical treatment more accessible, giving staff a way of getting the treatment they need, when they need it most. Through Private Healthcare, employees have prompt access to treatment for a whole range of conditions without any excess to pay.

At Bravo, we understand the importance of simplifying your Private Healthcare experience. We not only provide the solution but also assist with the setup, lightening your workload.

With our streamlined approach, employers pay a fixed monthly premium per person, typically through direct debit. This premium remains consistent for everyone, regardless of age, gender, or medical history, ensuring fairness and equal access to healthcare benefits.

Employees will receive a welcome pack and information on how to make the most of their Private Healthcare Benefits.

Claims are handled promptly and efficiently by the Private Healthcare provider, with access to a variety of private hospitals for your treatment.
