

**Topic:** How ChatGPT Makes You a Star

What do Taylor Swift and ChatGPT have in common? You can't go 24 hours without hearing about them. Don't know much about ChatGPT? *Shake it off* and join Chris Cooper, Eric Rangel, and Micah Rausa from MTA's Product team in this BMMA Hot Topic Webinar. They'll cover how to craft prompts, plug-ins, code augmentation, and how to write a letter without causing *Trouble (trouble trouble)*. Register now for good *Karma!*

**Speaker:** Micah Rausa – Product Specialist, MTA

Micah Rausa has been with MTA for nearly 9 years, recently moving from Support to Product. In his spare time, he enjoys playing games and adventuring outdoors with his loving partner, Nadia. And because he can't hold still, you might find him tinkering with random objects and learning as much as he can about everything he can. He hopes you enjoy the presentation and encourages any questions!

**Speaker:** Chris Cooper – Product Manager, MTA

I'm Chris Cooper, and I proudly serve as a Product Manager at MTA Solutions. With a wealth of 15 years in the field, my passion lies in crafting practical solutions from complex ideas and challenges. Currently, I'm deeply engaged in the realm of professional services, ensuring our solutions are efficient and strategically positioned to best cater to our valued users. I'm excited to leverage my experience and embark on this journey of innovation, making a positive impact every step of the way.

**Speaker:** Eric Rangel – Product Analyst, MTA

Eric Rangel Jr. is a recent graduate from the University of Alaska Anchorage (UAA), where he majored in mathematics. His academic foundation has seamlessly translated into practical research applications in both biology and computer science. Now, as a Product Analyst at MTA, Eric leverages his analytical skills and a relentless dedication to learning to enhance and innovate telecommunications products.
