GGIS Math policy asks that students have, at the very least, a basic calculator to bring with them starting in 8th & 9th grade math. However, students will need a graphing calculator for later grades and will find it extremely useful for Algebra I as well. Therefore, Mrs. Petrone *strongly recommends* that students invest in a TI-84 calculator by the beginning of Quarter 2 if possible. The TI-84 is a calculator that will best serve them from grades 8-12, even in AP Statistics as 12th grader, and beyond (Mrs. Petrone used her's through university).

Here are possible websites to order from: [Amazon.co.uk](https://www.amazon.co.uk), [Amazon.de](https://www.amazon.de), [jofogas.hu](https://www.jofogas.hu), and [vatera.hu](https://www.vatera.hu). On Amazon, the prices seem to go from approx. 100eur (ti-83) to 150eur (ti-84 ce). On [jofogas.hu](https://www.jofogas.hu) there may

be some TI-83 available for 12,000Ft and TI-84 for 18,000Ft (used condition). So, it takes a bit of search to find the most suitable deal. Hope this helps!

GRADE 9 -

9 English

- ☐ A4 Notebook (Lined)
- ☐ A4 Folder with pockets
- ☐ Pencil
- ☐ Eraser
- ☐ Blue or Black Ink Pen
- ☐ Highlighter (any color)
