The RFP annual contribution rate is set by the amount of income tax the IRS may want to misapply against you and attempt to collect from you for a particular tax year. This is the amount Freedom Law School (FLS) is guaranteeing to keep the IRS from collecting from you.

For this reason, FLS needs to know how much income you would have needed to report to the IRS on a Form 1040 if the federal income tax laws actually applied to your income, i.e. if you had been a citizen or resident of the District of Columbia or if any of your income was from federal government employment or as a federal contractor.

We understand the difficulty of summarizing a whole year's worth of income and expenses. We are happy to assist you by phone to answer the following income tax
