Kathy's search work has spanned the U.S., Europe, and China. She is a trusted provider of solution-based results for her clients. As a Partner at the Warren Enskat Group, she specialized in global investment team lift-outs and strategic partnerships within the asset management space.

She was a founding member of the New York office of Sheffield Haworth, a London-based search firm, where she established the asset management practice de novo. Kathy additionally co-founded a reputation intelligence app that measured reputation risk for the C-suite community. In addition, she established a Women's Board Practice at a major strategic communications consulting firm. Outside of executive search, Kathy established the U.S. presence for the Yihai Group, a Beijingbased real estate developer.
