

SMALLWORLD AUTOLER

PRODUCT OVERVIEW

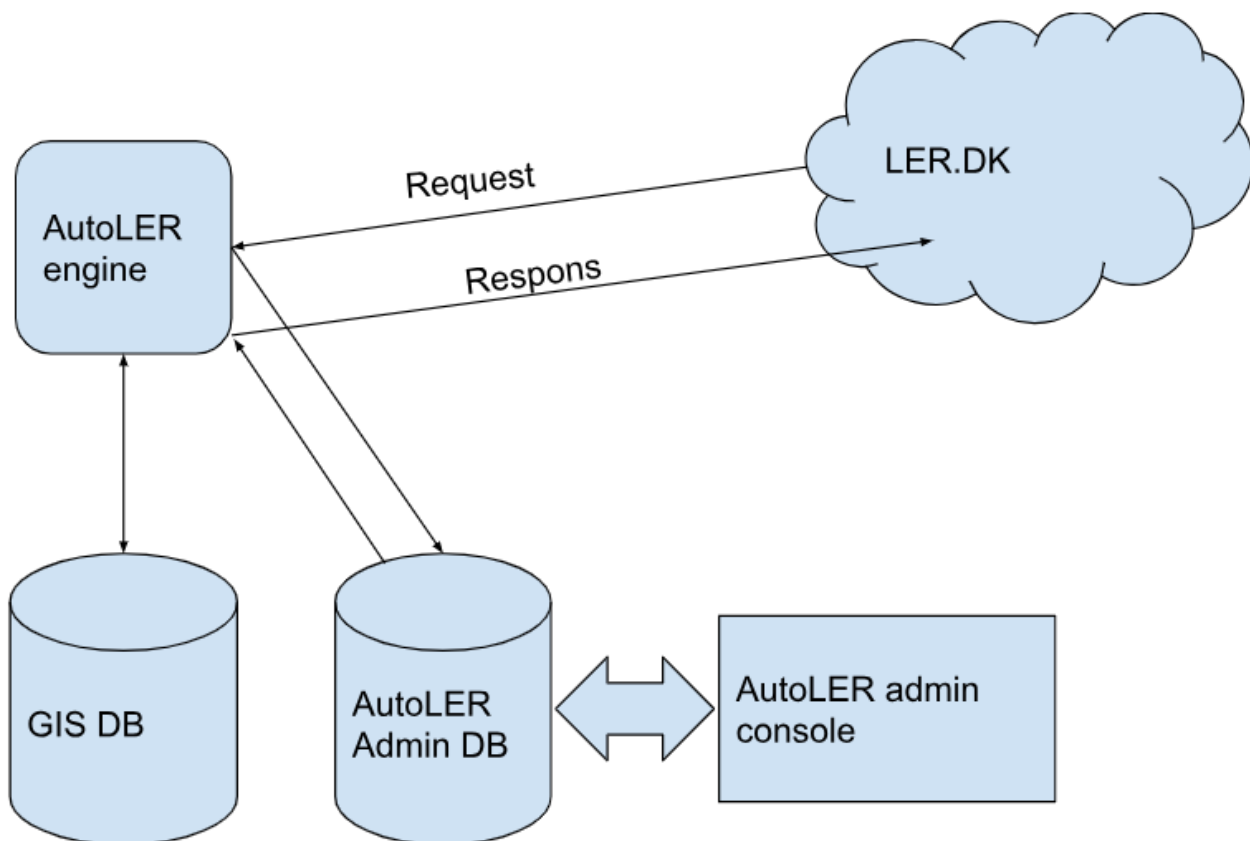

AUTOMATED PROCESSING OF THE DANISH
LEDNINGSEJERREGISTER TRANSACTIONS

SMALLWORLD AUTOLER HELPS YOU COMPLY WITH REGULATORY DEMANDS

Automated processing of requests from Danish *Ledningsejerregister* (LER) ensuring timely and correct responses about your network in the areas of interest:

- ▶ **Fulfils all LER process and format requirements given by Danish authorities**
- ▶ **Embedded function into Smallworld Physical Network Inventory (PNI)**
- ▶ **Logging of all LER-requests in dedicated Admin Console**
- ▶ **Integration to PNI GIS-database providing fast and accurate responses to LER**
- ▶ **Automated processing of LER requests providing all adequate network data**
- ▶ **Notification to GIS admin in case manual processing of requests is required**

ABOUT SMALLWORLD NORDIC

We are a Value Added Reseller (VAR) of General Electric's Smallworld Network Inventory solutions in Norway, Denmark and Sweden since 1992. Our solutions are tailored for utilities, telecommunications and public authorities through development, configuration, installation, maintenance and training.
