### **NOTE 1: GENERAL** (Cont.)

f. In late 2019, a novel strain of COVID-19, also known as coronavirus, was reported in Wuhan, China. While initially the outbreak was largely concentrated in China, it has now spread to most other countries, including Canada and Israel. Infections and mortality have been reported globally. Many countries around the world, including in Canada and Israel, have significant governmental measures being implemented to control the spread of the virus, including temporary closure of businesses, severe restrictions on travel and the movement of people, and other material limitations on the conduct of business. These measures have resulted in work stoppages and other disruptions.

The Company experienced the effect of the pandemic in all areas of our business, from delays in raw material deliveries, to clinical and product development projects. Due to lockdowns, and other COVID-19 related measures, all our business meeting, marketing events, conferences and expos were either canceled or turned virtual, slowing down the pace of our business development efforts.
