

Nørdus Collection Technical Data Sheet

The Nørdus range of larch veneers embodies the Scandinavian lifestyle, cosiness, and warmth. The deep brushing of the larch grain adds distinctive texture and beautiful structure, enhancing any interior that calls for a unique element.

- Moisture Resistant MDF Core
- Mixmatch/Planked Layout
- Large Panels - 2790 x 1220mm
- Unfinished
- Matching Edge Banding in Timber
- Made in Europe. Stocked in New Zealand

Colours

Spring Larch

Winter Larch

Grading Criteria

Prime Grade

Prime grade typically has few, if any knots, and these will be of minimal size. There will also be a minimal amount of sapwood defects, if any at all. There will be a relatively small amount of colour variation in the timber itself for Prime grade.

NB: The product grading criteria is an approximation. Please ask for details.

Installation Methods

Split Batten	Yes
Glue & Secret Nail	Yes
Other Proprietary Systems	Fastmount, Button-fix
Suitable Applications	Cabinetry, Walls & Ceilings

Matching Accessories

	26mm	46mm
Spring Larch	0.6mm x 26mm x 50m	0.6mm x 46mm x 50m
Winter Larch	0.6mm x 26mm x 50m	0.6mm x 46mm x 50m

Product Details

		Nørdus
Panel	Construction	Veneer Panel
	Origin	Europe
	Pattern	Mixmatch (Planked)
	Front Face	A Grade European Larch
	Core	MR MDF
	Back Face	A Grade European Larch
	Finish	Unfinished
	Structure	Brushed (Front side only)
	Dimensions	2790 × 1220mm
	Thickness	19mm
	Surface Area	3.4038m ²

Technical Data	Warranty	VidaSpace	7 years
	Moisture content	EN322	6% (Tolerance: ± 3)
	Deviation of thickness	EN14323	± 0.2 mm
	Deviation of Length + Width	EN14323	± 2 mm
	Deviation of squareness	EN324	± 2mm/m
	Flatness	EN14323	2mm/m
	Internal bond	EN319	≥ 0.35 N/mm ²
	Bending Strength	EN310	≥ 13 N/mm ²
	Modulus of elasticity	EN310	≥ 1600N/mm ²
	Well-managed forests		FSC® certified FSC C129187 (optional)
	Recycling		ok
	Density	EN323	600-700kg/m ³
	VOC loss	EN664	≤3% ppm
	Formaldehyde emission	EN717-1	≤ 0.013g/m ³
	PCP (pentachlorophenol)	CEN/TR14823	≤ 5% (PCP Free)
	European reaction to fire classification	EN13501	D-s2 (Unfinished)
	Reaction to fire - Walls & Ceilings		C/VM2 Table A1 - Group 3 (≥9mm thick solid wood, ≥400kg/m3) To achieve Group 1-s fire rating apply Zone 92 intumescent coating or similar

Product Codes	Spring Larch <i>A/A Prime</i>	VS7400-MR
	Winter Larch <i>A/A Prime</i>	VS7402-MR

Limitations

This product is not suitable for exterior applications where ambient environmental moisture content is likely to be elevated for extended periods such as interior swimming pools, sauna or industrial wet areas. This product is made from genuine timber. Just as any timber product can change colour due to ultra violet light, these products can also be affected. A change in colour or tone is therefore considered a natural characteristic, not a defect. In environments with exposure to direct or reflected sunlight, we strongly advise the use of sun blinds and protective UV film or glazings. Not suitable for high-wear applications such as bench tops, counters or tabletops. Due to the natural variations in colour and grain found in timber, each sheet is different therefore your samples should be treated as indicative of that species. If you are unsure about the suitability of in your projects please discuss with one of our specialists who will help you find a solution.

Handling and Storage

- Avoid leaning panels against walls.
- Do not store or transport panels in direct sunlight.
- Store panels where construction traffic and construction activity will not damage panels.
- Treat panels as a finished product and avoid dragging panels on the outer surface or across other surfaces.
- Store only in dry interior conditions on a minimum of three bearers across the full width of the panels keeping it flat at all times.

Care & Maintenance

Protect the future of your investment with the correct cleaning and maintenance regime. See link to our timber Veneer Care & Maintenance Guide – <https://www.vidaspace.co.nz/downloads-resources#Care-Maintenance>

Warranty

All VidaSpace products must be installed by a competent qualified joiner and/or installer who has the necessary skills and experience and can take individual site circumstances into account. VidaSpace warranty will apply only to projects which have been installed, handled and maintained to industry best practice and New Zealand Building Code requirements. It is the responsibility of the specifier to determine the product is suitable and compliant for the application. To view a copy of the full warranty, please contact our team.

Technical Support

Further information and technical support is available by contacting VidaSpace on 0800 119 388.

Special Note: 'In Australia and Europe the same general hierarchy of risk for surface flame spread for finishes is used. While differences exist in the small-scale or intermediate-scale fire test methods adopted in the different jurisdictions, the resulting classifications are considered to be sufficiently similar to the Group Number requirements of NZBC Clause 3.4(a) such that the results can be used directly for the purpose of compliance with Clause C3.4 of the New Zealand Building Code.
