

# Reduce Inspection Time, Increase Efficiency, and Improve Your Safety Score

## PARTICIPATE IN THE E-INSPECTION FIELD TRIAL

There are an estimated 5 million trucks on the road every year. However, with only 12,500 enforcement officers and under 4 million annual inspections, current commercial vehicle inspections are not occurring efficiently enough.

For this reason, Drivewyze has spearheaded a project with the FMCSA to develop and launch an electronic inspection solution -- e-Inspection helps:

- *Reduce time spent at inspection sites*
- *Increase your number of clean inspections*
- *Leverages your ELD investment -- available on the device you use to run Drivewyze PreClear*

As we enter the later stages of this project, we are seeking carriers to volunteer trucks and participate in our **e-Inspection Field Trial**.

### HOW E-INSPECTION CAN BENEFIT ALL FLEETS

#### On-time Delivery

*e-Inspection directly saves time at an inspection station*

#### Reduced Driver Turnover

*Drivers love to drive for safe fleets -- clean inspections help improve CSA score*

#### Reduce Insurance Costs

*Safety score improvements results in reduction of costs*

#### More Weigh Station Bypass

*Better the safety score the more likely to receive a bypass*

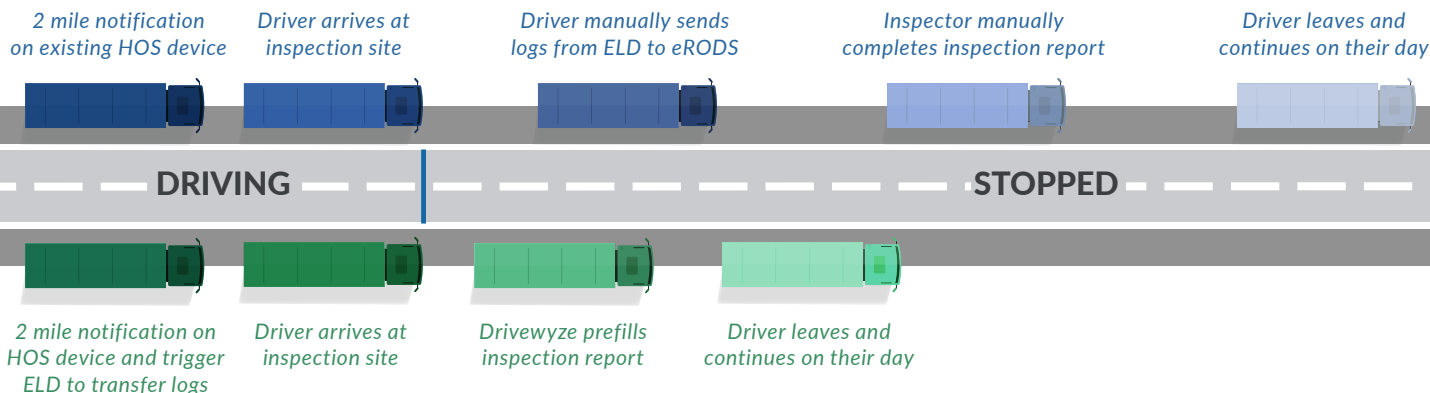

## WHY PARTICIPATE IN THE E-INSPECTION FIELD TRIAL?

Benefits all fleets from those with a **poor safety score** to a **good safety score**

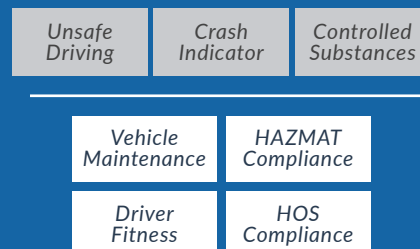

## THE DRIVEWYZE E-INSPECTION DRIVER EXPERIENCE

e-Inspection drastically reduces the time a driver spends stopped at a weigh station or inspection site. Imagine two trucks pulling in for an inspection -- one for an **e-Inspection**, the with a **current inspection**.

## E-INSPECTION HELPS IMPROVE CSA SCORE

All carriers want to improve their CSA Score. Clean Inspections impact a fleets CSA score with the 7 BASICs

4 of 7 BASICs are dependent on a clean inspection

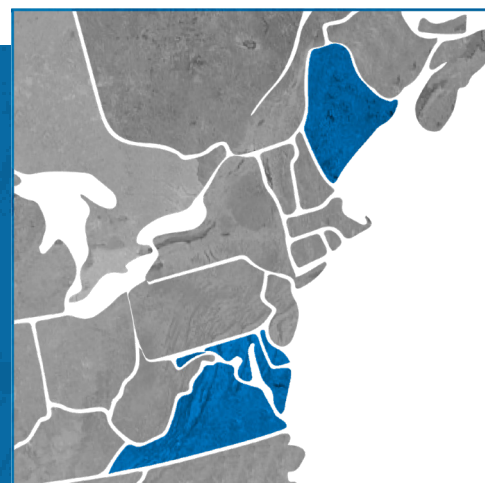

## ABOUT THE E-INSPECTION FIELD TRIAL

Work alongside Drivewyze, technology partners, state partners. When participating, you designate which trucks & drivers will participate.

- Begins November 2020 for 3-6 months
- 4 states with one site each: Maryland, Virginia, Delaware, & Maine
- Need drivers who routinely travel through the Field Trial sites

## JOIN THE FIELD TRIAL

As a Drivewyze PreClear subscriber you have the chance to gain these benefits early -- and the best part? **It is free to participate in the trial.**
