

NEMODATA

The next generation of fleet operations.

Supercharge your fleet's performance with Nemodata's AI-powered fleet health management platform. Our cutting-edge technology empowers heavy-duty fleets to operate with certainty, harnessing the full potential of artificial intelligence to enhance vehicle health and drive game-changing business impact.

TRUE MILEAGE. TRUE HEALTH. REAL INSIGHTS.

Nemodata's innovative approach places vehicle health at the center of fleet operations. Our unique technology generates personalized prescriptive maintenance plans for each vehicle, seamlessly integrating maintenance into daily fleet operations and improving long-term vehicle performance.

GET AHEAD OF THE CURVE

Currently, fleet maintenance is largely reactive, overlooking crucial factors like vehicles' unique makeup, system conditions, driver behavior, and environmental factors. This one-size-fits-all approach often results in larger-scale failures, unnecessary downtime, and gradual vehicle degradation over time.

Nemodata revolutionizes fleet management by enabling a proactive maintenance strategy. Leveraging a data-driven approach, our platform enables fleets to prevent roadside breakdowns, minimize downtime, and extend vehicle lifespans, ensuring long-term health and optimal performance. Fleet managers can now take charge with confidence, optimizing their operations and maximizing their vehicles' potential.

VALUE UNLOCKED WITH NEMODATA

AUTOMATE PLANNING

Forecast weekly & quarterly
with **Proactive PM
Recommendations**

PREVENT FAILURES

Unlock predictive maintenance
with **Vehicle Stress**

SAVE DOWNTIME

Optimize maintenance timing
with **Clustering Algorithms**

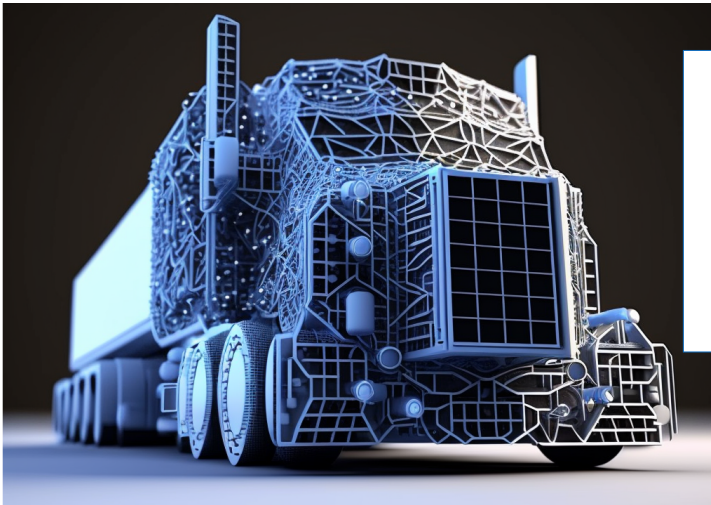

PRIORITIZE MAINTENANCE

Address the most urgent matters
with **At Risk Alerts**

IMPROVE VEHICLE HEALTH

Measure vehicle 'age' with
True Mileage

“

By integrating Nemodata's solutions into our offering, we are empowering fleets with the tools they need to operate at their best, ultimately saving time and money while improving safety and sustainability.
