

About the game

Meet Bonanza Billion - a vibrant fruit fiesta filled with magnificent winnings that every sweet tooth will love. Exciting gameplay with refilling-reels mechanics, scatter symbols, free spins with multipliers, and other great features. Feel this juicy vibe and take all great winnings!

How to play

Winnings are formed depending on the number of symbols. Choose the bet size using the buttons in the Total bet field. Higher bets will increase a total win. The bet value chosen is displayed in the corresponding field. To start the reels spinning, click the Spin button.

Auto play

Click the **Auto spins settings (A)** button to choose the number of rounds to auto play. Autoplay starts when you click the number of rounds and the **Autoplay button** shows the amount of remaining spins.

You can choose additional settings for the **Stop of auto spins**:

- on any win - autospin will stop after you win
- if bonus game is won - autospin will stop when the bonus game is won
- if single win exceeds - autospin will stop when a single win is above the written sum in the field
- if cash balance increases by - autospin will stop when the current balance is above the sum written in this field
- if cash balance decreases by - autospin will stop when the current balance is below the sum written in this field

To stop the spins click the **Stop Auto Spins button**.

Features

Symbols pay anywhere on the screen. The total number of the same symbol on the screen at the end of a spin determines the value of the win.

Refiling. A brand new feature. Now the cascading reels can give you many consecutive wins on every spin.

Free Spins feature is awarded when 4 or more Scatter symbols hit anywhere on the screen or a Free Spins round has been purchased. If 4 Scatter symbols drop on the reels you get 10 Free Spins, 5 Scatters - 20 Free Spins, 6 Scatters - 30 Free Spins. Whenever 3 or more Scatter symbols hit during the Free Spins Round, 5 additional free spins are awarded.

Multiplier symbol is present on the reels only during the Free Spins Round and it stays on the screen until the end of the refiling sequence. Whenever the symbol hits it takes a random multiplier value from 2x to 100x. When the tumbling sequence ends, the value of all multiplier symbols on the screen are added together and the total win of the sequence is multiplied by the final value.

Scatter symbol is present on all reels. Scatter pays on any position in the main game. During the Free Spins Round they only re-trigger Free Spins.

Buy Bonus. A player can buy a Free Spin game during the main game at a price pictured on the buy button. If Buy Bonus is purchased, the next spin guarantees a bonus game with 4+ Scatters appearing on the reels. If the bet is changed, the buy bonus price will be automatically changed to match your bet level.

Chance 2x feature. This feature slightly increases the bet while giving the player more chances in the main game to catch 4+ scatters and trigger a Free Spin game.

Refiling means that after every spin, all combinations are paid and all winning symbols disappear. The remaining symbols fall to the bottom of the screen and the empty positions are replaced with symbols coming from above. Refill will continue until no more winning combinations appear as the result of a Refill. There's no limit to the number of possible Refills. All wins are added to the player's balance after all of the Refills resulting from a base spin have been played.

Spin Results

If a winning combination is formed along any active payline, it will become animated and the win amount is displayed in the **Total Win** field.

- Winnings are formed depending on the number of symbols.
- Payouts are made according to the paytable.
- Note that only the highest win is paid on each of the active paylines.

To learn the game payouts, click the **Information (I)** button.

Settings

The setting button opens a panel with game speed and volume settings.

- Quick spin - the speed of spinning reels increases
- Spacebar to spin (can be used instead of clicking the Spin button)

Here also are sound effects and background music settings:

- Volume adjustment, including its complete turn off
- Turning the music (using checkmark)
- Turning the sound effects (using checkmark)
- To play in the left hand mode on mobile devices, put the corresponding checkmark in the settings.

Return to Player.

The overall theoretical Return to Player (RTP) is %.

RNG

The game is based on a certified random number generator. For more information, visit <https://www.bgaming.com/>.

Additional information

Malfunction voids all plays and pays! All unfinished rounds will be terminated every other day. If the game requires "Collect" - "Collect" will take place and the win from the round will be added to the player balance. If the game requires action from a player, the result is counted assuming that the player has chosen the action with no risk without raising the initial bet. This is the game rule version 1.1, December 16, 2021.

The Game Rules as published on this website are in English. Translations into other languages are provided as a service in good faith. In the event of ambiguity between an English version and a translation, the English version always retains priority.
