Scratch Dice

Description

Scratch Dice is an instant lottery game that combines elements of a scratch-off ticket and a dice game.

How to Play

Each ticket has a covered area that you need to scratch to find out the outcome. The outcome is a combination of 3 dice faces (each dice face can have from 1 to 6 dots on it).

1. Initially you will be offered a ticket to buy. Press **BUY** to try your luck on this ticket. Or press **SKIP** to be offered a new one.
2. The price of the ticket is a fixed amount.
3. Once you buy your ticket, scratch the covered area to reveal the outcome. You can scratch with your mouse cursor, your fingers (if on a touchscreen), or simply press **REVEAL**.
4. Depending on the outcome you will win a prize according to the paytable below.
5. In case you get a Street (any combination of 1-2-3, 2-3-4, 3-4-5, or 4-5-6), you will be given a special Gold Ticket. Scratch it and win a prize according to the Gold Ticket paytable below.

Malfunction voids all plays and pays! All unfinished rounds will be terminated every other day. If the game requires "Collect" - "Collect" will take place and the win from the round will be added to the player balance. If the game requires action from a player, the result is counted assuming that the player has chosen the action with no risk without raising the initial bet.
