18<sup>th</sup> August 2022

Dear Resident

**Re: Refectory Extension, Wyke 6<sup>th</sup> Form College**

We are pleased to inform you Wyke Sixth Form College is planning to build additional classrooms, new student social spaces and a large careers hub as part of a £3.6million investment from the Department of Education. This financial award recognises the growing demand for places at Wyke and this means we can continue to meet the needs of students from the local area over the next 3-5 years.

May we take this opportunity to introduce you to Triton Construction Ltd as we have been contracted to undertake the construction works which are scheduled to commence in September 2022, with a completion date anticipated for early summer 2023.

Throughout the contract we will have a full time Site Manager, Shaun Ruane, who will be available to deal with any concerns or enquiries you may have relating to the scheme (Shane Mobile 07506 095521 or Triton Main Office 01274 874772). It is our intention to carry out the works with minimum disruption to the surrounding residents and we shall continue to inform you of any large deliveries, or disruptive activities throughout the course of the works via the Wyke Sixth Form College website <https://wyke.ac.uk/newbuild2022/>. Construction access to the site will be via the Grammar School Road entrance.

Whilst the site will be left fully secured at night, we are mindful that construction sites tend to attract the attention of children and others. We would ask that any parents with young children warn them of the dangers of entering a construction site. Any concerns during the out of hours periods, please do not hesitate to contact the police directly.

We wish to apologise in advance for any inconvenience we may cause with carrying out the project.

Yours Sincerely
