Defect: Not possible to order in MyTolls. On the website of www.Darsgo.si it's possible to order a new OBU. OBU needs to be picked up at the border

Details

Company needs to register first at the website of www.Darsgo.si.

Every vehicle needs to be registered on the website of www.Darsgo.si including registration and euro emission class certificate.

To pick up an OBU, a MSTs Tolls card and SOR form is needed. The SOR form including barcode, can be downloaded after registration of the vehicle on the www.Darsgo.si website.

Pre-paid and postpaid possibilities. Pre-paid OBU can be topped up with the MSTs Tolls card with a maximum of €500 per vehicle account. Minimum amount is €50,-

When your MSTs Tolls card expires, the new card must be linked to the OBU in case you use the postpaid possibility. This process is manual and is a must otherwise the OBU will automatically switch from post- to pre-paid (4 beeps notification signal). This may cause a risk of getting fines due to violation of the toll roads. In order to re-activate a fuel card in the DarsGo system, i.e. to re-activate the post payment vehicle and user account linked to the fuel card in the DarsGo system, the user must visit the first 'DarsGo service' customer center on route or top up credit to their pre-payment and pay all negative transactions. Amendments can be made on the website of www.Darsgo.si and activated at the DarsGo service point.

OBU cannot be sent back to MSTs Tolls.

Cancellation can be done on the website of <http://www.darsgo.si>.
