

LASTING COLORS PROVEN TO PERFORM

Superior metal roofing and siding that's readily available and affordable.

SELECT PLUS METAL ROOFING AND SIDING

- Available in 26-gauge and 29-gauge metal thicknesses.
- 16 original color options replicating historically popular metal roofing colors
- 40-year finish warranty
- Natural-looking paint systems that all but eliminate the potential for visible wavy distortion.

PROUD PARTNERS

COLORED TO LOVE COATED TO LAST

Produced by PPG and specified by Nu-Ray, the Select Plug color system offers long-term surface protection with competitive scratch resistance and film hardness.

Sedona Red SRI-34

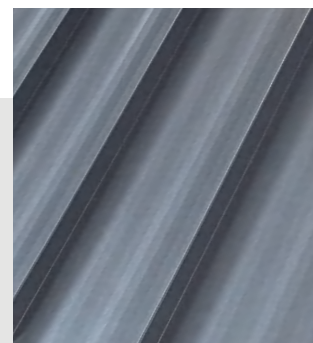

AESTHETIC OPTIONS

This is available in 26 gauge and 29 gauge metal thicknesses. Adding accent ribs or striations to a metal panel will decrease the waviness known as oil-canning.

Disclaimer: Colors are close representations of actual colors but are limited by printing capabilities. Please request a free metal sample to confirm color prior to placing order.
