

DISCLOSURE OF PHYSICIANS OWNERSHIP

Welcome to Legent Orthopedic Hospital. Legent Orthopedic Hospital meets the Federal definition of a physician-owned hospital, and Legent Orthopedic Hospital is proud to have a number of quality physicians invested in our facility. Due to your physician's concern over improving the quality and reducing the cost of medical procedures, along with a number of other physicians, he or she may have invested in Legent Orthopedic Hospital. Your physician's ownership interest in Legent Orthopedic Hospital does however mean that your physician may benefit from choosing to perform your surgical procedure at this hospital. The investment provides your physician an opportunity to retain quality control over your medical procedures, to have a voice in the administration of policies at our facility, and to ensure that your medical costs are reasonable. This involvement helps to ensure the highest quality of surgical care for our patients. A list of the hospital's owners that are physicians (or their immediate family members) is attached hereto as Exhibit A.

Your physician hereby advises you that you have the right to choose to be treated at another facility and select a doctor that is not invested in Legent Orthopedic Hospital. You will not be treated differently by your physician if you choose to obtain health care services at a facility other than Legent Orthopedic Hospital.

Legent Orthopedic Hospital is committed to providing clinical excellence in a safe, attractive environment for you and your family members. We are proud that many of the physicians who practice here have chosen to have ownership in this hospital. Their ownership enables them to have a voice in the administration and policies of our hospital. This involvement helps to ensure the highest quality of care for you.

If you have any questions concerning this notice, please feel free to ask your physician or Kim Stewart, the Chief Nursing Officer at Legent Orthopedic Hospital.

We welcome you as a patient and value our relationship with you.

Thank you.

Preservation of private practice. Providing patients with high-quality healthcare experiences at reduced costs.
