Wilshire US REIT Index℠

As of September 29, 2023

The Wilshire US Real Estate Investment Trust Index℠ (Wilshire US REIT℠) measures U.S. publicly-traded Real Estate Investment Trusts. The Wilshire REIT Index is a subset of the Wilshire Real Estate Securities Index℠ (Wilshire US RESI℠). The purpose was to create indexes of publicly-traded real estate equity securities without the limitations of other appraisal-based indexes. The Wilshire US RESI and Wilshire US REIT indexes were developed to offer a market-based index that is more reflective of real estate held by pension funds. These indexes serve as proxies for direct real estate investing by excluding securities whose value is not always tied to the value of the underlying real estate. Exclusions include: mortgage REITs, net-lease REITs, real estate finance companies, mortgage brokers and bankers, commercial and residential real estate brokers, home builders, large landowners and sub-dividers of unimproved land, hybrid REITs and timber REITs. The reason for the exclusions is that factors other than real estate supply and demand, such as interest rates, influence the market value of these companies.

Objective

To benchmark the universe of U.S. real estate securities held by institutional investors.

Key Features

- The company must be an equity owner and operator of commercial (or residential) real estate
- The company must have a minimum total market capitalization of at least $200 million at the time of its inclusion
- Subset of the Wilshire 5000 Total Market Index℠
- A company is removed if the total market capitalization falls below $100 million for two consecutive quarters
- Weighted by float-adjusted market capitalization
- Created September 1991

The Wilshire® indexes are calculated and distributed by Wilshire Opco UK Limited (Wilshire Indexes). It is not possible to invest directly in an index. Exposure to an asset class represented by an index may be available through investable instruments derived from that index. Wilshire Indexes makes no representations regarding the advisability of investing in investment products based on the indexes not sponsored, endorsed, sold or promoted by Wilshire Indexes. Index returns do not reflect payment of certain sales charges or fees an investor may pay to purchase the securities underlying the index or investment vehicles intended to track the performance of the index. The imposition of these fees and charges would cause actual performance of the securities/vehicles to be lower than the index performance shown. Inclusion of a company in the Wilshire indexes does not in any way reflect an opinion of Wilshire Indexes on the investment merits of the company.
