## FT Wilshire US Large NxtGen Index Series Index Series

December 31, 2023

The FT Wilshire US Large NxtGen Index uses more than 100 market and fundamental signals selected from well-established academic research

It applies robust machine learning models to mitigate overfitting and capture non-linearities. The index finds the active allocation that maximizes the risk adjusted excess return of the portfolio. Constraints are applied to limit the industry exposure and the exposure of a single stock relative to the benchmark, the FT Wilshire US Large Cap Index.

The FT Wilshire® indexes are calculated and distributed by Wilshire OpCo UK Limited (Wilshire Indexes). It is not possible to invest directly in an index. Exposure to an asset class represented by an index may be available through investable instruments derived from that index. Wilshire Indexes makes no representations regarding the advisability of investing in investment products based on the indexes not sponsored, endorsed, sold or promoted by Wilshire Indexes. Index returns do not reflect payment of certain sales charges or fees an investor may pay to purchase the securities underlying the index or investment vehicles intended to track the performance of the index. The imposition of these fees and charges would cause actual performance of the securities/vehicles to be lower than the index performance shown. Inclusion of a company in the Wilshire indexes does not in any way reflect an opinion of Wilshire Indexes on the investment merits of the company.
