

# Adelante NEXTGen Property Securities Index<sup>SM</sup>

As of December 29, 2023

The Adelante NEXTGen Property Securities Index<sup>SM</sup> (ACMNXT) designed by Adelante Capital Management LLC., measures the performance of publicly-traded real estate securities, primarily Real Estate Investment Trusts (REITs), which own and operate commercial real estate designed to serve as a proxy for non-traditional property types that have emerged over the past decade. Created in October 2017, the index uses the real estate subset of the Wilshire 5000 Total Market Index<sup>TM</sup> with specific Wilshire Real Estate Property Types and is calculated under a modified capitalization-weighted methodology. The methodology is expected to retain, in concept, the economic attributes of float-adjusted, capitalization-weighting while providing enhanced diversification.
