ATLANTA BOOTH AND CHAIR
MANUFACTURING

Always Delivering Our Best to You

Blending Tradition With Innovation

Committed to Excellence

1868 Tucker Industrial Road. Atlanta, GA 30084

www.abcbooth.com

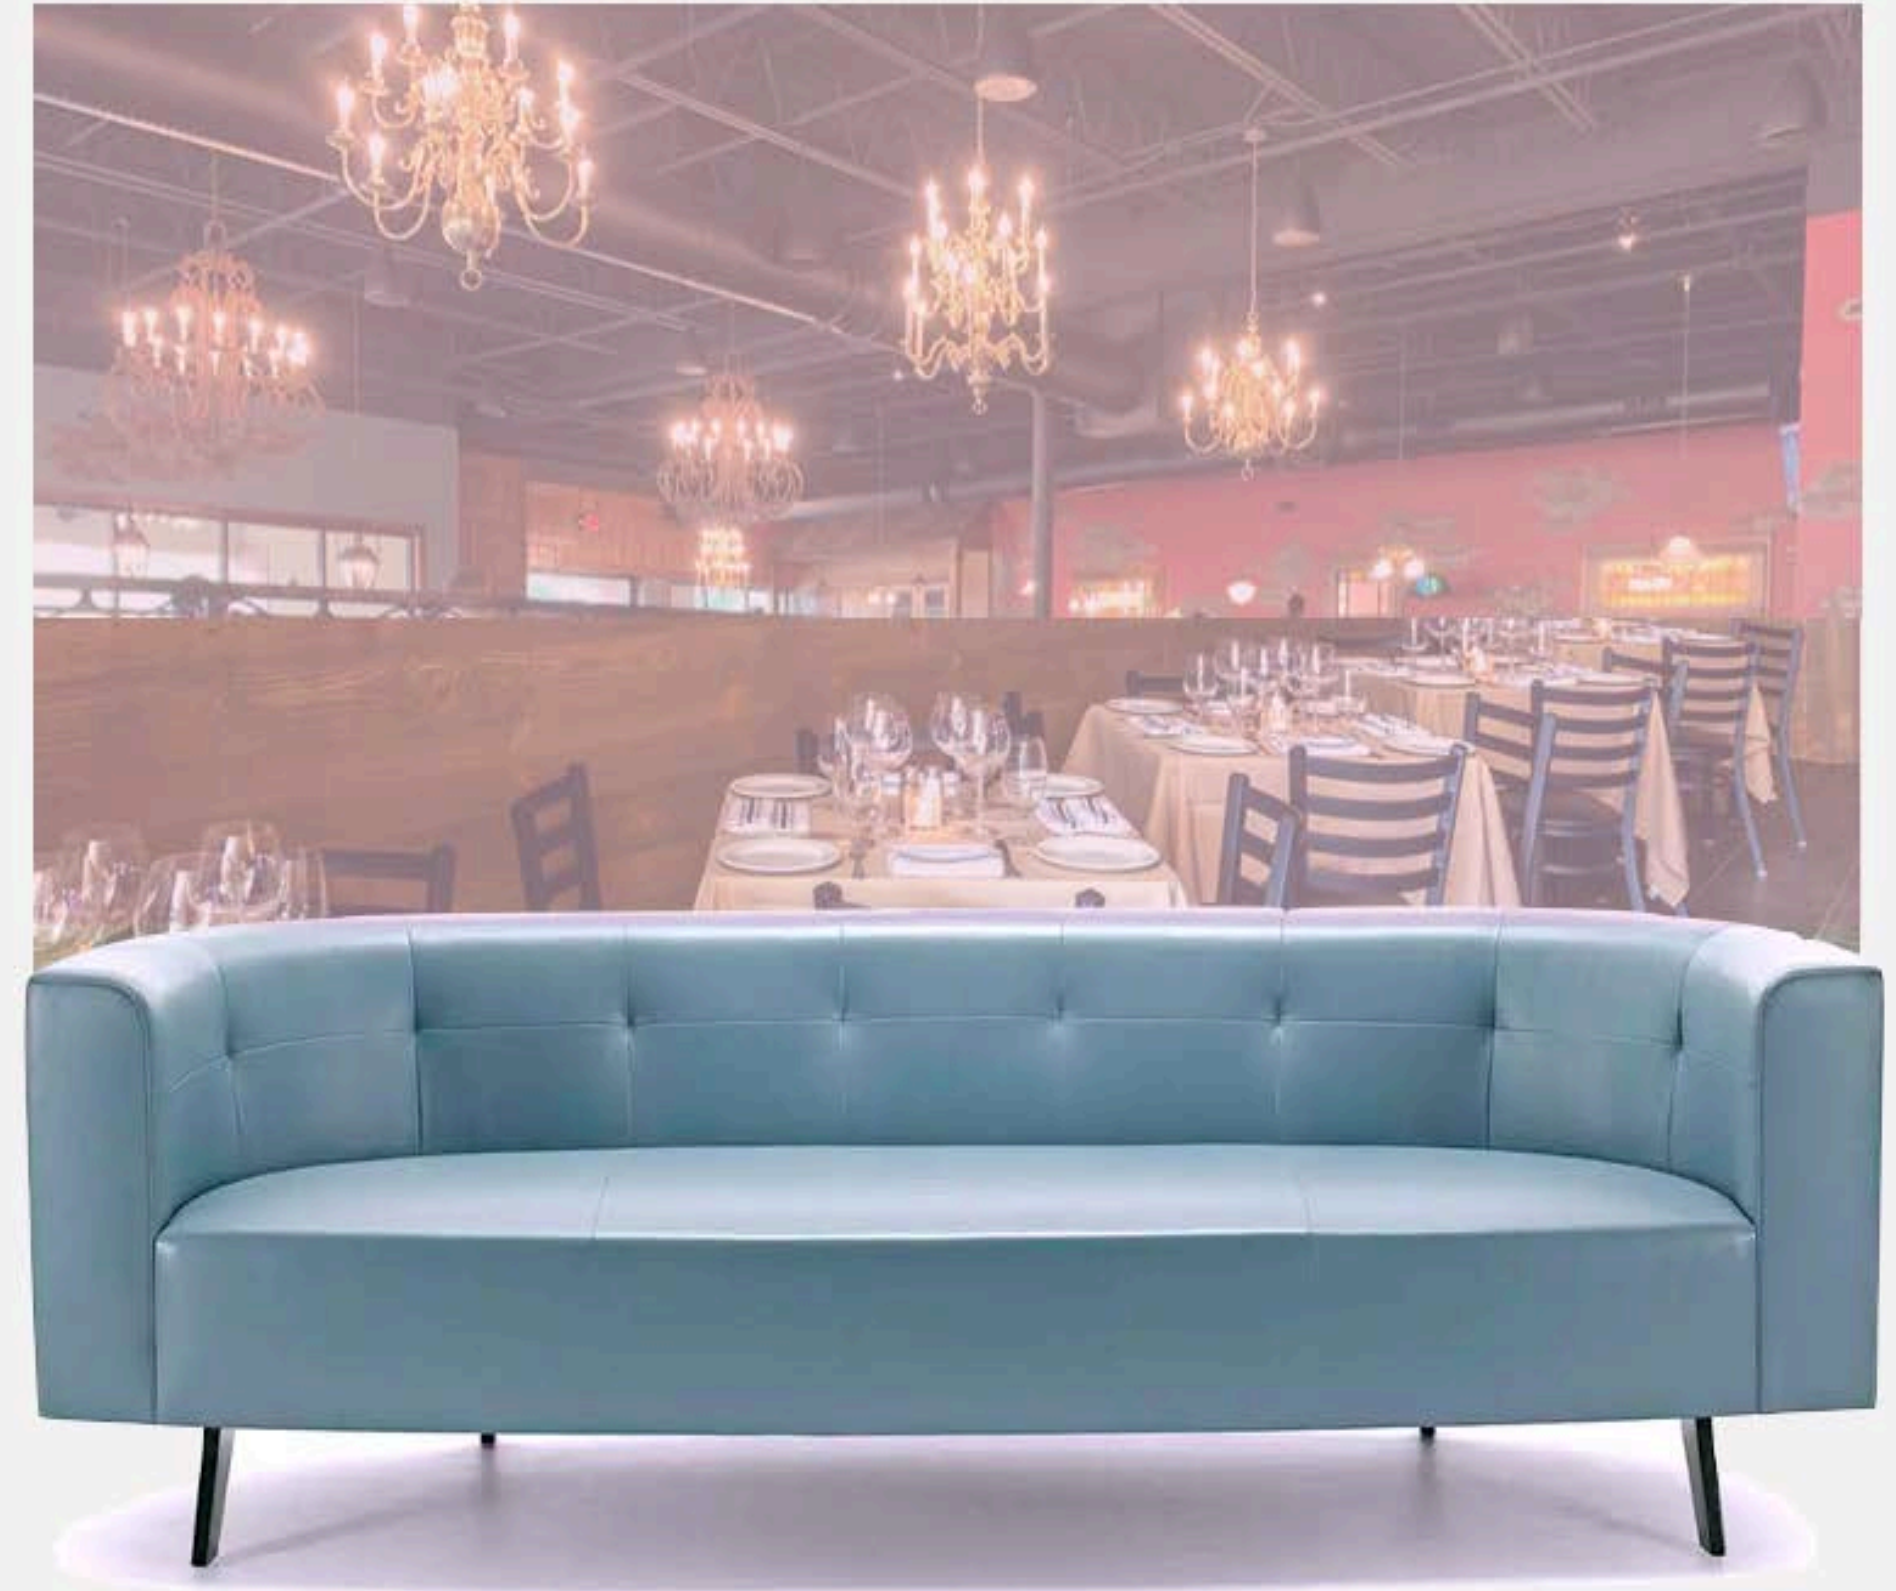

Welcome to **A**tlanta **B**ooth & **C**hair (ABC). We are a manufacturer and importer of commercial furniture, primarily for the foodservice industry, based in the greater Atlanta, GA area.

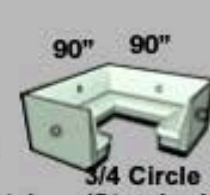

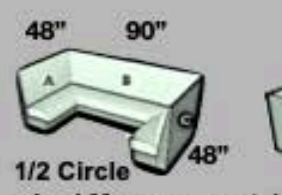

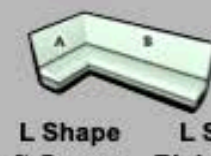

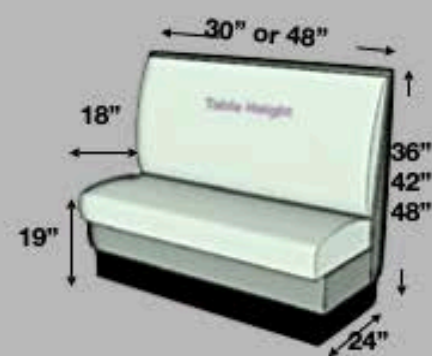

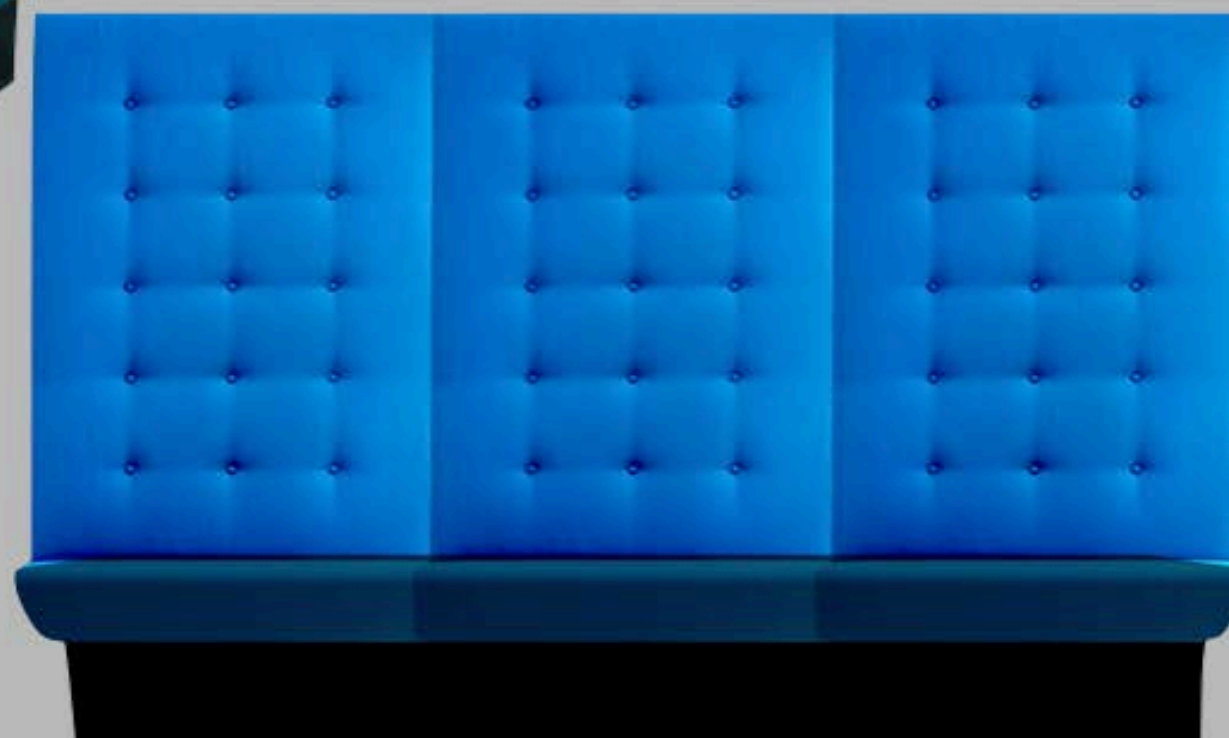

ABC manufactures a wide variety of wood and upholstered booths, as well as a nice selection of table tops. We import and stock wood and metal chairs and barstools, and a complimentary selection of table bases.

Our mission is to serve our customer base by delivering the best quality product out of our facility, delivering the highest value possible to each and every customer. We firmly stand behind our product line, and initially bring to you a management team of six people with over 120 years of combined experience in the commercial furniture industry.

We are currently a member of the NAFED and Horizon buying groups, a subscriber to AutoQuotes, and have independent sales reps and industry-experienced factory sales people to aid customers of all types on a nationwide basis. No order is too small for us to value, and no order is too large for us to tackle. We are proud to offer limited custom capabilities within the booth and table top lines. Custom import items can also be sourced for customers with long-term projects that are in a position to make specific quantity commitments.

Our goal is to earn the position as a top tier supplier to each and every one of our customers, no matter their size or market position. We look forward to becoming that supplier.....for you!
