Connected Vending Machine

storeroom LOGIX™

What It Does

The SRX Vending Machines control access, dispense parts, keep track of on--hand inventory levels, monitor min/ max levels, and automatically transmit replenishment requests to suppliers.

- Monitor who, what, when and where
- Control, allow, and restrict access
- Reduce consumption, shrinkage, and downtime
- Track usage

How It Does It

The Process is simple and automated because the vending machine is connected through the cloud to SRX software and suppliers.

- Single and dual coils
- Easy on-site configuration
- Access from any device

Checkout Software

- Run on a computer, phone, tablet, or any other Internet connected device
- Increase productivity and product visibility
- Wirelessly issue products from anywhere in the world
- Build allocation codes to track product usage by department, cost center, work order and much more
