Connected Lockers

storeroom LOGIX™

What It Does

SRX Lockers control, allow, and restrict access to parts and assets, keep track of on-hand inventory levels, monitor min/max levels, and automatically transmit replenishment requests to suppliers.

- Monitor who, what, when and where
- Control, allow, and restrict access
- Reduce consumption, shrinkage, and downtime
- Track Usage

We're Obsessed with Your Inventory

storeroomlogix.com

How It Does It

The process is simple and automated because the vending machine is connected through the cloud to SRX software and suppliers.

- Multiple door configurations
- Weighted and non-weighted shelf configurations
- Assets and consumables
- Access from any device
