

Connected Buttons

What It Does

The SRX buttons are a very fast way for a user to send a replenishment request to a supplier. The buttons are best for parts that have irregular or spikes in demand. Simply push the button and an order gets sent to the assigned supplier.

- Instant order placement
- No need for a phone call, text, or email.
- Get the parts you need really fast

How It Does It

The process is simple and automated because the buttons are connected through the cloud to SRX software and suppliers.

- Buttons are easily assigned to a specific part
- Connect to Wi-Fi or cellular
- Mounts to bins, shelves, or other surfaces
- Up to 2000 clicks
