

Weather vs. climate

Materials

world map

Post-It notes

internet access

Instructions

1. Choose 10 cities around the world.
2. Find each city on your world map and attach a Post-It note to its location.
3. Over a 3 day period, look online to see the weather forecast and record it on the Post-It note.
4. What do you notice about the weather in each of these locations as opposed to the location of the other cities? Can you determine with climate zone each is in?
