

Name :

Date :

Unique animal life cycles

Butterfly lifecycle necklace

Materials

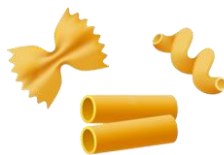

green construction paper

scissors

hole punch

three varying pastas (macaroni, bowtie, penne, etc)

markers/watercolors /food coloring

yarn or string

paper or plastic straw

glue

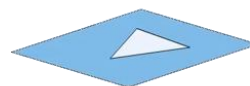

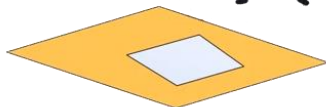

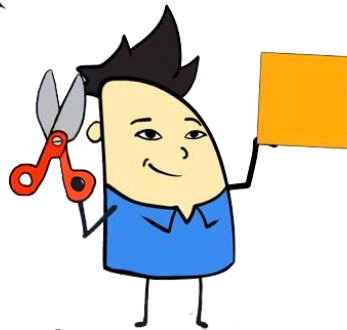

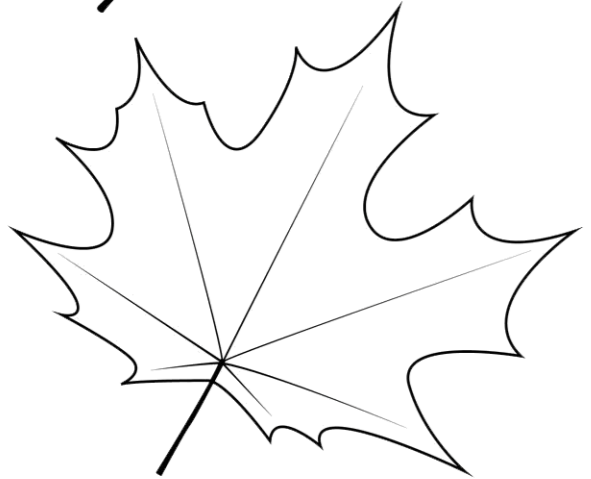

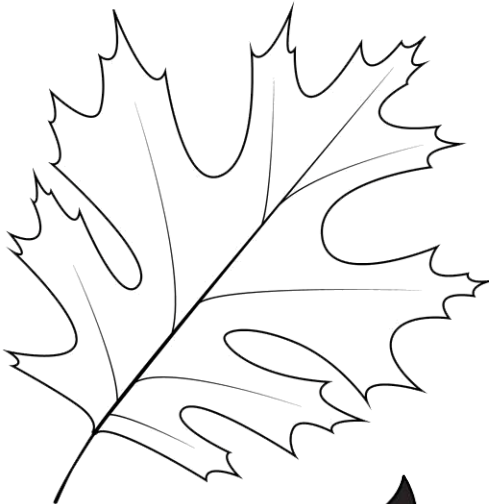

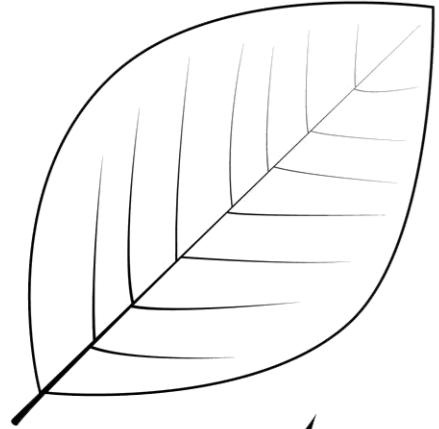

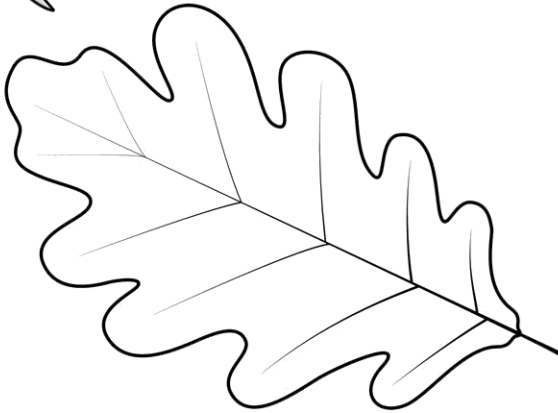

Instructions

1. Cut four leaf shapes from the construction paper.
2. Dye or color the pasta shapes using the markers or watercolors.
3. Using the hole punch, punch a circle out of paper to represent the egg.
4. Cut the straw into three equal pieces.
5. On each leaf, label with the name of each butterfly cycle: egg, chrysalis, caterpillar, butterfly
6. Glue the pieces that represent each cycle on the corresponding leaf: the white circle is the egg, the rotini might represent the caterpillar, the bowtie might best represent the butterfly
7. Once glue and paint is dry, it's time to start assembling the necklace. The straw will act as spacers. It should go: egg, straw, caterpillar, straw, chrysalis, straw, butterfly
8. You have created a fun and versatile visual representation of the life cycle!
