

Magnets

Magnetic mouse maze

Materials

Instructions

1. Cut an oval shape out of the gray or black felt with dimensions 2" x 2". You can draw eyes, ears. Cut another thin straight line to make a tail. Glue the tail of the mouse with the hot glue gun.
2. Using the hot glue gun, attach one of the magnets to the bottom of the felt mouse.
3. Take the yellow felt and cut a triangle for your cheese piece. You can draw holes on it to make it more realistic.
4. Draw a big maze on the tagboard.
5. Since the magnets have to stick to each other through the table, place the maze on a thin table,
6. Place the felt mouse at the beginning of the maze and the cheese wedge at the end.
7. Hold the magnet under the table where the mouse is and move it around. As you move the magnet, the mouse should follow on its own! Complete the maze!
