## WORLDWIDE'S DOOR SOLUTIONS

Worldwide Timber Traders are proud to present you with high-quality Polyrey® and StyleLite® products for your Door requirements. Please read the handy hints below to help with the care of your products.

## **StyleLite®** DOOR & PANEL CARE INSTRUCTIONS

### STYLELITE® CLEANING DO'S & DONT'S

- |                                     |  |
|-------------------------------------|--|
| ✓ Clean, wet micro-fibre cloth.     | ✗ Paper towel.                         |
| ✓ Clean, wet chamois.               | ✗ Dry wipe.                            |
| ✓ VUPLEX Anti Static Polish weekly. | ✗ Brushes, scourers or scrapers.       |
| ✓ Non Abrasive soap and detergent.  | ✗ Abrasive, harsh, volatile chemicals. |
| ✓ Warm water.                       | ✗ Thinners or Methylated Spirits.      |

### STYLELITE® GENERAL CLEANING

Best results will be achieved using Vuplex Anti Static Polish and Cleaner with a clean micro-fibre cloth on a weekly basis. This will clean, seal, protect and maintain the Stylelite surface to its optimum condition. Vuplex and a micro-fibre cloth will be supplied with your set of doors in the cleaning kit, alternately a non-abrasive cleaning fluid (eg. glass cleaner) or warm soapy water and wipe using a clean micro-fibre, soft cloth or damp chamois will be adequate.

## STYLELITE® - INITIAL SURFACE HARDENING

Stylelite® high gloss surfaces are supplied with a protective film which should **ONLY BE REMOVED ONCE THE PROJECT IS COMPLETE.**

The Stylelite surface becomes more scratch resistant over the first few days after the removal of the protective film. This process can be accelerated by lightly cleaning the Stylelite surface immediately after the protective film is removed with Vuplex Anti-Static and Polish Cleaning Kit. When the protective film is initially removed, dust may be attracted to the StyleLite surface due to the build up of static electricity. Using Vulpex will remove the static energy from the Stylelite surface.

## STYLELITE® - REMOVING MARKS & LIGHT SCRATCHES

Stylelite® can be refinished from scuffing and scratches with the application and step following procedures of EGR Décor scratch repair kit alternatively a good quality liquid polish (eg. liquid car polish) along with using a damp, clean micro-fibre or soft cloth will work fine, polishing in a circular pattern ensuring that there is no dry heat been generated on Stylelite surface to avoid damage.

For optimum results the use of low speed electric buffer is encouraged. Please Ensure all polish residues are removed completely from the Stylelite surface when finished and finish by cleaning the door over with Vuplex Polish and Cleaner.

Heavier scratches can also be removed following the same steps and procedures as above alternatively a good quality fine compound polish (eg. 3M Perfect-It III) along with using a damp, clean micro-fibre or soft cloth will work fine.

**\*\*Important: Please note that “TruMatte” finishes cannot be polished to remove scratches.**

## POLYREY® CLEANING DO's & DONT's

- |                                    |  |
|------------------------------------|--|
| ✓ Clean, wet micro-fibre cloth.    | ✗ Dry wipe.                            |
| ✓ Clean, wet chamois.              | ✗ Brushes, scourers or scrapers.       |
| ✓ Non Abrasive soap and detergent. | ✗ Abrasive, harsh, volatile chemicals. |
| ✓ Warm water.                      | ✗ Thinners or Methylated Spirits.      |

## POLYREY® GENERAL CLEANING

Polyrey® Melamine Board. This economical, ready-to-use decorative panel is suitable for vertical use (partitions), and moderate horizontal use (furniture), in low traffic environments. If a spill occurs on doors or panels, immediate action is required.

- Wipe the surface clean to avoid high levels of moisture from coming into contact with the products surface.
- Use a soft cloth dampened with warm water to remove stains.
- If unsuccessful, try using windex or methylated spirits on a soft cloth.
- You may also use a mild household spray cleaner with a soft cloth and avoid heavy application and rubbing excessively.
- Always read the recommendations on the cleaning product prior to use.
