

DCAP Ltd is hiring:

## Research & Investment Management Web3 / Digital Assets

<b>Position:</b>	Junior / Entry Level Position We are open to working students
<b>Type:</b>	Full-Time or Part-Time (workload must be at least 60%)
<b>Company:</b>	DCAP Ltd.
<b>Location:</b>	Löwenstrasse 29, 8001 Zurich, Switzerland
<b>Working from Home</b>	We typically work from the office but may allow one home office day per week upon agreement and depending on the schedule of meetings.

### About us:

DCAP is a Web3 Asset Manager headquartered in Switzerland, licensed as a Portfolio Manager by FINMA. We enable investors to seize the wide range of investment opportunities presented by Web3. Our team comprises a diverse group of seasoned investment professionals, native Web3 experts, engineers, and economists. At DCAP, we have a sharpened focus on the Web3 megatrend and its potential impact on various asset classes, sectors, and companies. We take a comprehensive approach to identifying and analyzing Web3 investment opportunities, incorporating a structured, research-driven, top-down, and bottom-up investment process.

Our Web3 Multi-Strategy Fund is an evergreen, thematic, long-biased fund structured under Cayman Islands law. The Fund utilizes a research-driven top-down and bottom-up approach to invest in a broad spectrum of public companies, digital assets, and third-party strategies across the value chain offered by the Web3 revolution. In the coming months, we will launch additional products to complement our Multi-Strategy Fund.

### Job description:

DCAP's Research & Investment Management Team seeks a Web3 / Digital Assets expert to join our dynamic team based in Zurich.

The successful candidate will:

- Support the research team to research and track Web3, blockchain, and FinTech developments in areas such as layer 1 blockchains, scaling solutions, DeFi, metaverse, and Web3 gaming. The successful candidate will deeply analyze relevant projects/companies from a strategy-, technology-, and risk perspective to gain valuable insights for our investment solutions and drive our internal investment decisions.
- Identify and assess Web3 trends and trend waves on an ongoing basis. Identify emerging trends early on, monitor and evaluate trends as they develop, and identify promising assets that are well-positioned to profit from a trend wave.

- Support the investment management team to maintain and develop reports, systems, and processes in the area of portfolio and risk management.
- Research and cover 3<sup>rd</sup> party strategies (external fund managers) and listed equities from a Web3 as well as fundamental perspective.
- Support our CEO and team leads in administrative and organizational tasks, such as fund administration and interactions with service providers in relation to the management of our investment solutions.

This position is a match if you have solid knowledge regarding blockchain / Web3 and want to deepen/extend this knowledge. At DCAP, you will be able to work with a first-class team with diverse backgrounds, from traditional finance to digital assets, covering the Web3 ecosystem across various asset classes, such as listed equities, digital assets, and third-party strategies. Depending on your interests and skills, you will be able to deepen and extend both your technological understanding of Web3 / blockchain as well as gain insights into financial analysis, portfolio management, and investment strategies, including understanding market trends and risk assessments.

---

## Requirements

- Strong team player, interest, and willingness to work in a start-up. Entrepreneurial mindset and team spirit, a 'Doer' mentality, and intellectually curious with excellent attention to detail
- Solid knowledge of digital assets, blockchain infrastructures, and related use cases
- Good understanding of the blockchain tech stack and ecosystem of at least one leading layer 1 blockchain (e.g., Ethereum, Solana, Polygon, etc.). Additional knowledge of other public blockchain architectures is a plus
- Knowledge and interest in current and emerging blockchain use cases, e.g., DeFi, DAOs, metaverse, Web3 gaming, the Web3 ecosystem overall, and other emerging use cases
- Basic knowledge of financial products. Familiarity with investment management principles/practices and the ability to analyze financial data and market trends is a plus
- Fluent in English as our working language is primarily English
- Work permit for Switzerland and willingness to work in our Zurich office regularly with flexibility for remote work upon agreement
- A relevant degree such as a bachelor's/master's degree in computer science, finance, business and economics, or a related field is a plus. We also accept working students who are still studying

---

## How to apply:

- If you are passionate about Web3 and digital assets and believe you have the skills and experience to excel in this role, please submit your application, including (i) your **CV** and (ii) a **cover letter** explaining why your skillset and background fit this role, to [recruiting@dcap.ch](mailto:recruiting@dcap.ch)
- Important: When applying, mention the keyword "DCAP WEB3-RESEARCH-INVESTMENTMANAGEMENT" to show you have read the job post completely. This is to avoid spam applicants.
