Investment Objective & Strategy

Sixteen02 Global Equities UCITS Fund ("the Fund") looks at investing in companies that can attractively compound capital over 3-5 years. We believe that very few asset classes have the superior reinvestment and compounding capability that equities offer. This along with their unique upside / downside character make it a compelling asset class to devote our time and energy on. The Investment Manager assembles a concentrated high conviction portfolio of 18 to 30 companies.
