PROGRAM DETAILS

Associate of Liberal Arts

The Associate of Liberal Arts is an interdisciplinary program of study that provides a broad exploration of the ideas, values, issues, and heritage of civilization. Students develop a broad understanding of the liberal arts and sciences, their interrelationships, and their integration with the Christian worldview. This core program offers instruction in Bible, theology, philosophy, fine arts, literature, communication, language, math, science, social sciences, and writing.

A Christian liberal arts education is established on the premise that faith and learning are inseparable with respect to the social, intellectual, and cultural fabric of life. It recognizes that knowledge, wisdom and understanding begins with a faith in and reverence for Jesus Christ, acknowledging that He is the ultimate revelation of God's purpose for mankind. All things were created through Him and for Him, therefore the seat of academic learning is fully accomplished through the lens of a Christian faith.

On successful completion of this program students will be able to:

- Reason critically through the lens of a Christian world-view concerning truth, values, ideas, aesthetics, and community with the ability to engage the culture with compassion and understanding
- Demonstrate a breadth of knowledge in the disciplines of biblical studies, theology, natural science, fine arts & humanities, social science, mathematics, language, writing, and human development
- Demonstrate skill in the professional and personal competencies of communication, analytical thinking, problem-solving, reading for information, listening for understanding, innovation and teamwork
