We raise a toast to your enjoyment and hope that your evening with us is a truly memorable one.

HISTORY OF TATTERSALLS HOTEL

- 1858 Ellen Maccoy transferred the license of the House of All Nations at Rocky River to Armidale. She proceeded to open the Wellington Inn on the current site of the Tattersalls Hotel Armidale.
- 1873 The old Wellington was razed and a new three-story hotel completed the following year, the original building you are sitting in now.
- 1884 Patrick Wade bought the Wellington for the sum of £5,000 and changed its name to the Tattersalls Hotel.
- 1909 An acetylene gas plant was installed to light the hotel under the initiative of publican Joseph Kirkwood.
- 1912 The Tattersalls was transferred to Thomas DeCoursey who made the hotel "far and away the best stand in Armidale."
- 1929 The hotel was sold to Harold J Robinson for £17,000. Throughout the worst years of the depression, Robinson averaged £3,000 p.a. profit.
- 1937 Having experienced such success, Robinson remodelled the hotel in Art Deco Style. The staircases were lined with walnut plywood and Art Deco style pressed metal ceilings were installed.
- 1950's The hotel fell into disrepair after Robinson's death in 1946. It was described as "very rundown".
- 1977 Renovations aimed at increasing profitability were carried out. An arcade of shops were built on the western boundary from the mall towards Cinders Lane.
- 1995 The arcade was reintegrated as part of the hotel in 1995 by licensees Brian and Julie Hilton.
- 2016 John and Annette Cassidy took over full ownership and proceeded with a total re-development in Art Deco style, aiming to restore the hotel to its former glory. The accommodation has been remodelled into 24 luxury rooms, the upstairs dining room has been restored and is available as a function centre and the general decor aims to reflect the hotel's heyday.

WHISKY

Islay

The Whisky Isle. The only island in the world where there are 3 times more bottles of whisky than residents. The smokiest of holy grails for the whisky lover - Islay. The deep, smoky notes synonymous with Islay come from the fuel source used to dry the damp malt, and the peatiness of the whisky generally depends on the amount of time the malt has been left to dry over the peat blocks.
