

WHO WE ARE

Wesco Signs strives to illuminate the businesses of Southern California one sign at a time. Our expert design team uses knowledge and years of creative prowess to deliver a product that breaks barriers. Wesco Signs has been providing Southern California with quality signs, graphic design specialists, and architecture services since 2006. We build our team and products based on the voice of our community.

We pride ourselves as a sign company in Los Angeles for being able to encourage innovation for businesses of all sizes throughout Southern California. Every day we are expanding, creating new designs farther throughout the sunshine state. Every design we make is different and we strive to create a custom sign that exceeds your expectations.

We are proving that your business's sign is more than a name. Our efforts build a story and create a message that neighbors near and customers far can grasp upon first sight of your company sign.

OUR COMMITMENT

**"WE ARE COMMITTED TO UPHOLDING OUR MOST CHERISHED VALUES
IN EVERY PROJECT AND TASK WE TAKE ON."**

We can produce signage that fits all business and industry types, no matter the atmosphere you want your space to give off. We offer restaurant sign services, real estate industry signs, consulting offices, healthcare facilities, and so much more. From neon signs to raised panels, our years of experience guarantee a sign that presents a lasting message. Our architects are professionals who can build your sign with elegance and efficiency.

SIGN TYPES

CHANNEL LETTERS

Wesco Signs offers Channel Letters with quality customization options and displays at a great price. These are individual letters that are secured to your structure at the level that you desire. Our installers are certified architects who will ensure that your sign is secure and shining for all to enjoy.

DIMENSIONAL LETTERS

Dimensional letters are illuminated externally. That is, if you're looking to light up your sign by night, you'll need to consider an external lighting source. Durable, yet economical, our dimensional lettering can be made in varying depths depending on the material you choose.

INTERIOR SIGNS

Liven up a blank wall in your office space with the name of your company and your logo in any color and design you want. Bring light and color to the area that gives visitors their first impression of your business.

MONUMENT SIGNS

Monument signs are as they sound – grand structures that are self-supporting to display your brand in lights. These signs can be shaped to your liking, whether it be to match your logo or resemble a castle. Your sign can either be a part of this monument as a panel or be one with it.

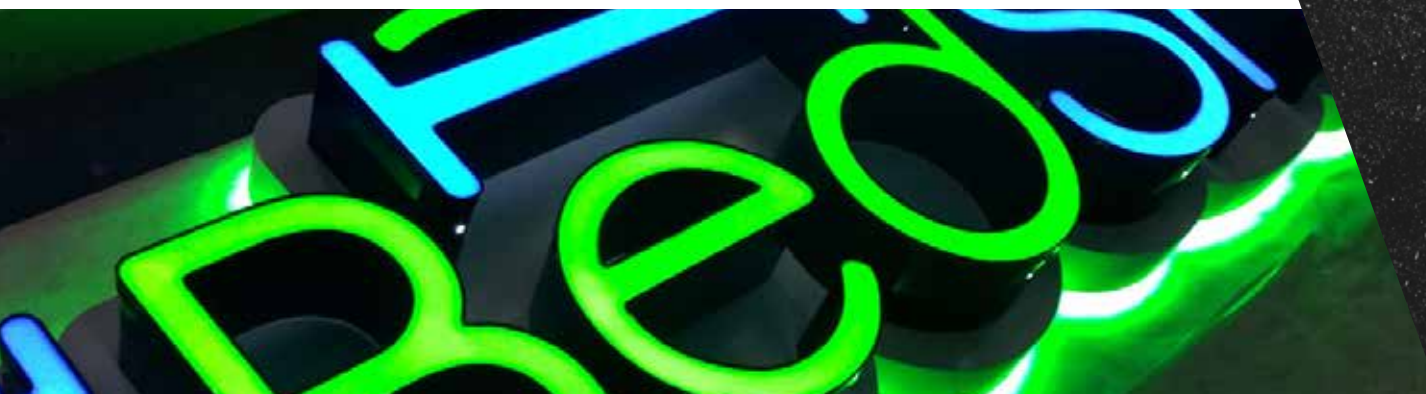

CABINET SIGNS

Cabinet signs are panels attached to your business that layout your company name and logo to interested eyes and potential clients alike. It is an economically friendly option that allows you to be creative on a flat canvas. The sizes of your sign vary in accordance to your preference and business type.

PYLON/POLE SIGNS

Pylon and Pole signs allow more creativity because they are on a larger canvas compared to channel or dimensional letters. This leaves less room for imagination and more for you and the Wesco creative team to work with.

NEON SIGNS

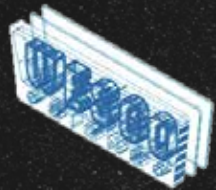

Neon signage brings an eye-catching radiance during the day and a powerful shine at night.

SIGN SERVICES

SIGN DESIGN

Plans out the physical design of your sign inch by inch. It starts off as an idea given to us through your consultation and expanded upon with our in-house graphic design team.

SIGN ENGINEERING

Wesco Signs has engineers who are experts at operating state-of-the-art technology to create a sign that looks better than the initial design. Our engineering team conducts on flexible circumstances, able to manufacture any design you choose with accuracy.

CITY PERMITS

Our state-of-the-art designs and systems guarantee sturdiness and longevity of your sign in any condition. We operate in accordance with city guidelines and regulations, doing necessary research to insure your company is safe and acceptable across all parameters.

PROJECT MANAGEMENT

Maintains customer involvement in the process by having experienced and talented project managers. You can contact them for all informational needs regarding your project.
