PARTNERSHIPS OVERVIEW

ICG is partnering with several companies to offer clients a full suite of services. Our combined team has decades of experience in Managed IT Consulting & Solutions, Engineering, Architectonical design and various Technical Consulting Services for Mission Critical Operations, for commercial businesses and government agencies across Maryland, Washington, DC, and Virginia. We are 100% committed to our customers and we hold great emphasis on customer service and customer goals by bringing your vision and dreams to fruition.

PARTNERSHIP CORE SERVICES

CYBER SECURITY

Cyber security is becoming increasingly important for organizations of every size. A security breach can derail operations, send systems offline, and compromise hard-won trust from your clientele. Working with knowledgeable cyber security consultants can reduce cyber security threats.

IT SUPPORT

Often the level of IT support available to a business is overlooked until a crisis arises. With managed IT support, your team is never left dangling, deploying valuable resources to fix a complicated networking issue or a new software application.

SOLUTIONS CENTER

In order to remain efficient and competitive in nearly every industry, organizations need customized IT solutions that directly address specific needs for optimized operations, rapid scalability, and reliable security. The most cost-effective way to achieve these goals is to outsource these tasks to an experienced professional.

MISSION-CRITICAL FACILITY PERFORMANCE

Our technology specialists can provide IT systems growth modeling, systems evaluations, best of breed analysis, recommendations for system upgrades, vendor comparisons, detailed IT systems, configurations, and implementation management.

WHY CHOOSE IMPERIAL CYBER GROUP

Our team of highly experienced specialists is equipped to evaluate current information technology systems, cyber security systems, IT support infrastructure, equipment, performance, etc., and work with our clients to develop a gap analysis report and recommendations to assure the organizations' resiliency.
