About IBC Tote Tanks

IBC Tote Tanks from Percheron Plastic, are handy, inexpensive, highly mobile totes for liquid storage like potable water, maple sap and more. They are easy to stack and move by fork lift or tractor. We can specialize your tank with adapters if desired. These IBC Tote Tanks are brand new, and have never been used - there is no chance that previous, unknown contents may leach into your liquids. These are food grade tanks.

Our Tanks are New

Percheron's IBCs use only new plastic for tanks & outlets. They are uncontaminated. The cages that surround them are usually refurbished, which is standard for the industry. The cages are in excellent shape.

Stacking Limitations

- x2 Maximum when full
- x3 Max. when empty and aligned perfectly
- x4 Max. empty and in perfect conditions
